At any one time HEE supports more than 160,000 students and trainees whilst working closely with partners across the NHS locally, regionally and nationally on shared priorities.

We are led by our Chair and Chief Executive, who are part of our Board, alongside our directors and non-executive directors. We also have eight regional directors who play a major leadership role in the geographies they manage, making decisions on how best to assure and support performance in their region, as well as supporting local system transformation.

We have Local Education and Training Boards (LETBs) that are responsible for the training and education of NHS staff, both clinical and non-clinical, within their area. Our LETBs, which are committees of HEE, are made up of representatives from local providers of NHS services and cover the whole of England.
