As the Advancing Dental Care Review progresses, we will provide updates and opportunities to get involved or have your say.

Have your say about leadership development

We are conducting research to understand the attitudes of Dental Professionals (Dentists and DCPs) towards leadership training and development.

By completing our online survey, you can share your views and experiences. This will help us better understand your training needs and to develop and improve leadership development offers that are relevant and effective to dental professionals.

Our survey should take no more than 10 minutes to complete. You can access the survey by clicking on the link below.

[Click here to take part in the survey](#) [6]

Thank you very much in advance for your help

Developing a comprehensive academic strategy for postgraduate dental training

Two further surveys are open, which are exploring options for developing a comprehensive academic strategy for postgraduate dental training in England. One for dentists and one for dental care professionals. The links can be found below:
