CapitalNurse is working on improving the understanding of the different routes into nursing, and supporting development of routes into nursing in London.

Clarifying the routes into nursing

With the removal of the bursary, and addition of apprenticeship routes, the routes into nursing available to different people can be confusing. In response to this CapitalNurse has been working with the Mayor's office to develop an online resource to clarify the routes available [6].

Nursing degree apprenticeships

CapitalNurse has completed a pan-London procurement of Nursing Degree Apprenticeships. Eight Higher Education Institutions have been awarded as preferred providers [7]. Any London NHS organisations can join without further procurement required by emailing simon.dennis@nhs.net [8].

Second registration

CapitalNurse has developed a fact sheet on second registration opportunities in London [9].

Work experience in nursing

CapitalNurse is working to support more London health and care providers to provide nursing work experience opportunities for young people interested in pursuing a career in nursing.
