The data set out in this data dashboard report sets out our annual workforce diversity data as at June 2018.

It covers the protected characteristics monitored through the NHS Electronic Staff Record - age, disability, gender, ethnicity, religion or belief, and sexual orientation.

The data relates only to Health Education England staff employed on Agenda for Change terms and conditions.

Our workforce data forms part of the equality information that we use to help us meet our duty to eliminate discrimination and harassment, promote equality of opportunities and foster good relations between different groups within our workforce (the aims of the Public Sector Equality Duty).
