The Centre for Pharmacy Postgraduate Education (CPPE) has developed a national learning resource and campaign for pharmacy professionals to better support people living with mental health conditions.

CPPE is a national organisation funded by HEE to provide educational solutions for the pharmacy workforce to maximise its contribution to improving patient care.

Twice a year CPPE focuses on a key area of importance to the whole pharmacy profession. Mental health is our current topic. CPPE has developed a learning programme on mental health, which has been distributed to pharmacy professionals in England.

Pharmacy

As outlined in the NHS Long Term Plan, the NHS should make more appropriate use of pharmacy professionals? clinical skills, helping patients get the right care, at the right time, in the right place.

Community pharmacy

Community pharmacy services are expected to transform, as new clinical pharmacy services, working practices and digital platforms develop to meet the public's expectations for a modern NHS community pharmacy service.
