

Fully Funded Clinical Endoscopist Training

Health Education England

Enrolment Open until 31st December 2021 for a 2022 start

Health Education England (HEE) is offering students and Endoscopy services a flexible new way to train healthcare professionals to perform safe endoscopic procedures. All academic elements are delivered online, with minimal contact days away from trusts.

We accept new applicants and those from Clinical Endoscopists with experience. We run 30 and 40-week programmes. We ask for trusts to provide clinical supervision and access to training lists.

Our services

2021-2022

- **Financial support grant (15K)**

Awarded per trainee. Course fees are paid to support this training.

- **University Academic Study**

Degree and Master's level training delivered by Birmingham City University and Liverpool John Moores University.

- **Access to clinical advice**

Our clinical advisor is on hand to provide advice to clinical supervisors and line managers.

- **Online interviews** to suit you with a trust champion for support.

- **Reserve places now for future cohorts** We want to support your workforce planning needs now and in the future.
