

Stakeholder Briefing – Issue 33

Key Messages and links to 1 April 2021

Welcome to Health Education England's stakeholder bulletin.

In this bulletin we will provide:

- COVID-19 latest updates
- Overview of HEE education and training news
- An update from your regional office

HEE COVID-19 LATEST UPDATES:

We have created a [COVID-19 update webpage](#). It provides guidance and information from HEE, which applies to all students and trainees. This webpage also includes [HEE COVID-19 Surge Guidance](#).

Extra support for new generation of UK doctors

HEE has [announced](#) that medical graduates can now have an extra five days shadowing in their first year of Foundation School. This additional paid commitment is to help compensate for some disrupted learning and experiences arising from the impact of the pandemic.

This is in addition to the usual period of shadowing that is offered to trainee doctors, which enables new FY1 doctors to fully adapt to their new surroundings and colleagues and develop their confidence. The extra period of shadowing, to be organised through the UK Foundation Schools, will also be helpful to those who have graduated overseas who will be unfamiliar with the NHS. The funding has been supported by the Departments of Health in England, Scotland, Wales, and Northern Ireland.

Attendance at the extra shadowing period will not be mandatory, but UK Foundation School Directors strongly recommend that new FY1 doctors take the opportunities provided, so that they get to know senior medical colleagues in their team, meet the other healthcare professionals in their new workplace, and become familiar with their new clinical environment.

We are supporting all professions to rapidly grow to meet the needs of patients by:

Data Driven Healthcare in 2030: Transformation Requirements of the NHS Digital Technology and Health Informatics Workforce

[This report](#) was commissioned by HEE's Digital Readiness programme to identify the capacity and capability challenges facing the NHS digital technology and informatics workforce (the 'digital workforce') in the next 10 years.

Information from the exercise was used to model projected demand, and data from the NHS Electronic Staff Record used to model projected supply, for the digital workforce for the period 2020 to 2030. Particular attention was paid to workforce demand and the job roles and skills needed in a scenario called the Data Driven Future.

We are ensuring core HEE work to support our NHS colleagues continues:

Big increase in students taking NETS survey

The National Education and Training Survey (NETS) 2020 campaign has seen an increase of 20 per cent in responses on the previous year, with almost 37,000 recorded. [Find out more about the NETS survey.](#)

We are making sure all professions have the training they need to make a difference:

Applications for cohort four of the NHS Digital Academy's Digital Health Leadership Programme open on 1 April

The application window for Cohort 4 of the NHS Digital Academy [Digital Health Leadership Programme](#) opens on 1 April 2021, closing on Friday 30 April, with the Cohort starting in September 2021.

You will find the latest updates on the [NHS Digital Academy website](#), including support throughout the application process, top tips, case studies and access to webinars, and by following the Digital Readiness [Twitter account](#).

New guide to building a digital strategy

NHS Providers have launched this brand new [Digital Boards guide](#) is the third in its series, focusing on how NHS trusts can build a successful digital strategy. The guide is produced in collaboration with Public Digital and supported by Health Education England and NHSX, as part of their Digital Readiness Programme.

Digital competency framework for Allied Health Professionals

This [AHP digital competency framework](#) has been developed to support the enhancement of digital competence (knowledge and skills associated with digital technology in practice) for all allied health professions from band 3 to band 9. It is intended to be a developmental and supportive tool that can enable all staff to meet their digital potential.

The framework was developed by [Chris Tack](#), a [Topol Digital Fellow](#) and will be developed into an interactive profession specific self-assessment tool in the future.

New opportunities to gain project support for innovation and education in anticipatory care through the National CLEAR Programme

HEE is offering support to local projects that developing local anticipatory care models. This is a chance for primary care networks and integrated care systems to accelerate local initiatives in anticipatory care, to improve patient care, population health and help to relieve pressures on primary care.

What is the National CLEAR Programme? CLEAR (Clinically-Led workforce and Activity Redesign) is a work-based learning programme sponsored by HEE. It supports projects with innovation expertise, data analysis and service modelling; but also delivers in-depth education for local clinicians equipping them with data, tools and techniques for service and workforce transformation.

How to access this opportunity:

- Attend a webinar on Wednesday 7 April from 1.30 – 2.00pm to gain more information about what is involved, how the programme works and the benefits for primary care networks. Register by emailing clear.team@hee.nhs.uk
- Find out more about the National CLEAR Programme on the [CLEAR website](#) or [CLEAR web pages on the HEE site](#).
- Discuss your local needs in more detail by contacting clear.team@hee.nhs.uk

Healthcare Scientist presentations

The National School of Healthcare Science (NSHCS) facilitates and supports the education, training and development of all Healthcare Scientists from apprentices to consultant grade. Once a month they invite one of our Healthcare Science trainees to give a presentation on their role in the NHS, projects they have delivered, challenges of their training and why they love their role, followed by questions from the audience. Confirmed dates are:

- Tuesday 6 April - Genomic Counselling
- Tuesday 11 May - Physics

Please email katie.foster@hee.nhs.uk to find out more about the dates and receive the meeting link.

Updates to End of Life Care (e-ELCA)

A new session on [the AMBER care bundle](#) has been added to the [End of Life Care for All \(e-ELCA\)](#) e-learning programme. This new session describes what the care bundle is, why it was developed and how to use it in clinical practice. It also explains how the resource will help colleagues to provide high quality care for patients who are facing uncertain recovery and may be approaching the end of life.

REGIONAL UPDATE

Midwifery/Nursing

Skills for Care Virtual Event: The wonderful world of nursing in social care
(Wednesday 19 May, 10-12:30)

This event will explore the wide ranging roles and opportunities that a career in adult social care can offer, aimed at providers of adult social care, HEIs, student nurses, registered nurses and those interested in the nursing associate role.

We're delighted that our keynote speaker is Deborah Sturdy, Chief Nurse for Adult Social Care in England. We'll also hear from a range of other speakers including registered nurses and student nurses.

Why should I attend?

This event will give you a better understanding of: the wide range of career opportunities within adult social care the trainee nursing associate programme and the nurse apprenticeships programmes and how they can benefit both students and care providers the benefits of offering placements to trainee nursing associates, nurse apprentices and nursing students how we'll ensure that the nursing curriculum accurately reflects working within adult social care.

For further information and to book your place [here](#).

Mental Health

Mental Health, Learning Disabilities and Autism Workforce Workshop - 26th April 2021

The right workforce with the right skills, knowledge and values are essential for the delivery of Mental Health and Learning Disability & Autism services and also, workforce is one of our biggest challenges for a range of reasons.

Health Education England and NHE England & Improvement are holding interactive workshops looking at:

- Key interventions to grow and develop the MH & LDA workforce for the Midlands

- The role of national teams and systems (including NHSE/I and HEE regions) and the levers they can deploy
- Owning and driving the local actions

There are two workshops scheduled one for the East Midlands 10:00 – 12:00 and West Midlands 14:00 – 16:00 on the same day. To receive the invitation please email england.midlandsmentalhealth@nhs.net

The Midlands CY MH Team facilitated and hosted a Mental Health Support Team Celebration event Friday 19th March for MHST sites to come together to consolidate and reflect on the hard work, dedication and achievements over the past 2 years on the CYP MH programme. This was hosted via MS Teams with 100+ participants attending from Midlands sites, including service leads, CCG leads, EMHPs, schools and colleges. For more information on the CYP MH programme please contact Jamie.tate@hee.nhs.uk

FURTHER INFORMATION

By following @NHS_HealthEdEng you can keep up to date with new information and resources as they are published. Most importantly are the notifications of webinars being broadcast during the week.

Right now, making sure we are communicating properly is obviously incredibly important. If there's any information you think is missing on [HEE's webpages](#), please let us know by submitting your question to the [HEE Q&A helpdesk](#).
