- **30 days of updating**
- **Just back on the HCPC register, working as a Band 5 social care OT**

“ I’m not just a “Mum” there is another side to me. I enjoy working as an OT in social care and using that part of my knowledge again. ”

My registration lapsed in 2017 but in 2021 when my daughter was a bit older, I decided it was time to start working as an OT again.

I always wanted to work in a social care setting and initially contacted the County Council; they were very supportive and were still developing their process to support return to practice.

In November 2021 I was able to gain employment in my local NHS Trust at Band 4 in a bank position, three days per week. This enabled me to build up my experience again.

Having completed my 30 days updating experience, I successfully applied for an OT role. It is great to be back working in social care with such a knowledgeable and supportive OT team. Their support has been essential.
