

Midlands Endoscopy Training Academy

Fully funded Clinical Endoscopist Training Programme

The Midlands Endoscopy Training Academy is offering students and Endoscopy services a flexible new way to train healthcare professionals to perform safe endoscopic procedures. All academic elements are delivered online, with minimal contact days away from trusts.

- We accept new applicants and those with clinical endoscopy experience.
- We run 30 week and 40 week programmes to support academic learning to run alongside clinical skills training.
- Appropriate skills courses will also be funded and provided to trainees through the course of their clinical training.
- We ask that trusts to provide clinical supervision and access to training lists.

Our services 2023 - 2024

- financial support grant awarded per trainee and course fees paid to support training
- Degree and Masters academic study delivered virtually by Higher Education Institution partners
- essential academic study skills module available to support learners
- short online interviews with a trust champion for support
- reserve places now for future cohorts
