

Dementia Education And Learning Through Simulation 2 (DEALTS 2) programme

A simulation-based dementia education programme developed in partnership by Health Education England and the Ageing and Dementia Research Centre at Bournemouth University

- Adaptable simulation approach
- Focus on Dementia Risk Reduction and Prevention; Person-Centred Care; Communication, Interaction and Behaviour
- Suitable for all staff with regular contact with people with dementia
- Learning outcomes mapped against National Dementia Training Standards Framework (Tier 2)
- Experiential learning approach to facilitate positive impacts on practice

“The life story activity was so inspirational”

“Thought-provoking.... the value of feeling how a person with dementia might experience life”

Now also available:

e-Learning Dementia Education And Learning Through Simulation 2 (e-DEALTS2) programme.

We have adapted the DEALTS2 toolkit to a new online format that uses synchronous collaborative e-learning environment (facilitated through Teams or Zoom) in a way similar to the traditional classroom as it allows real time sharing of experiences and interaction.
