

Health Education England supporting the NHS – 2018/19 snapshot

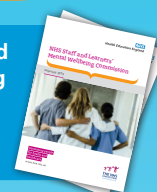

Produced the Topol Review outlining how to prepare the workforce to deliver the digital future

Health Education England (HEE) exists to ensure the workforce of today and tomorrow has the right number, skills, values and behaviours, at the right time and in the right place. At any one time we are supporting more than 160,000 students and trainees whilst working closely with partners across the NHS locally, regionally and nationally on shared priorities.

Here we outline some of our 2018/19 key achievements, as we engage colleagues across the service to play our part in delivering the NHS Long Term Plan.

Produced the NHS Staff and Learners' Mental Wellbeing Commission outlining how to care for those who care for the nation

31,000 maternity staff trained as part of the Maternity Safety Training Fund

5,000 new Trainee Nursing Associates recruited

Doubled the intake of the NHS Graduate Management Training Scheme

Launched the only national multi-professional framework for Advanced Clinical Practice in England

Hit the **1 million** mark for NHS staff trained in tier one dementia awareness

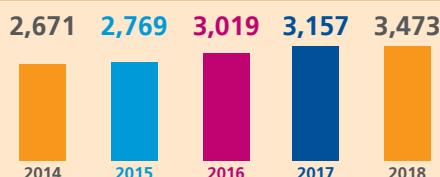

200 training/development products developed to address workforce challenges

1,600 student Physician Associates in training, compared to 70 in 2013

Largest number of GP trainees recruited in NHS history

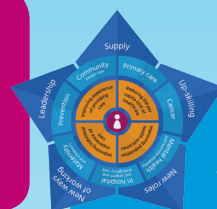

1,000 more nurses recruited to HEE's Return to Practice programme

Almost **doubled** the increase in the number of new starter paramedics between 2013 and 2018

100%

fill rate achieved in 25 specialty training programmes

Created the **HEE Star**, a model to lead workforce transformation across provider systems

Additional **£40m** spent to strengthen investment on workforce development - a **50%** increase on the previous year

Reached **20m** visits to HEE's Health Careers portal

25% increase in trainees entering ST1/CT1 level in psychiatry

48% increase in usage of HEE e-Learning for Healthcare content

Supported **58** employer-led apprenticeship trailblazer groups in developing standards
