NETS 2019 – Results Overview

The National Education and Training Survey (NETS) is the only national survey of all healthcare learners across all clinical learning environments. It gathers feedback from learners right across the NHS and beyond. This year's survey ran from 11th November to 13th December 2019.

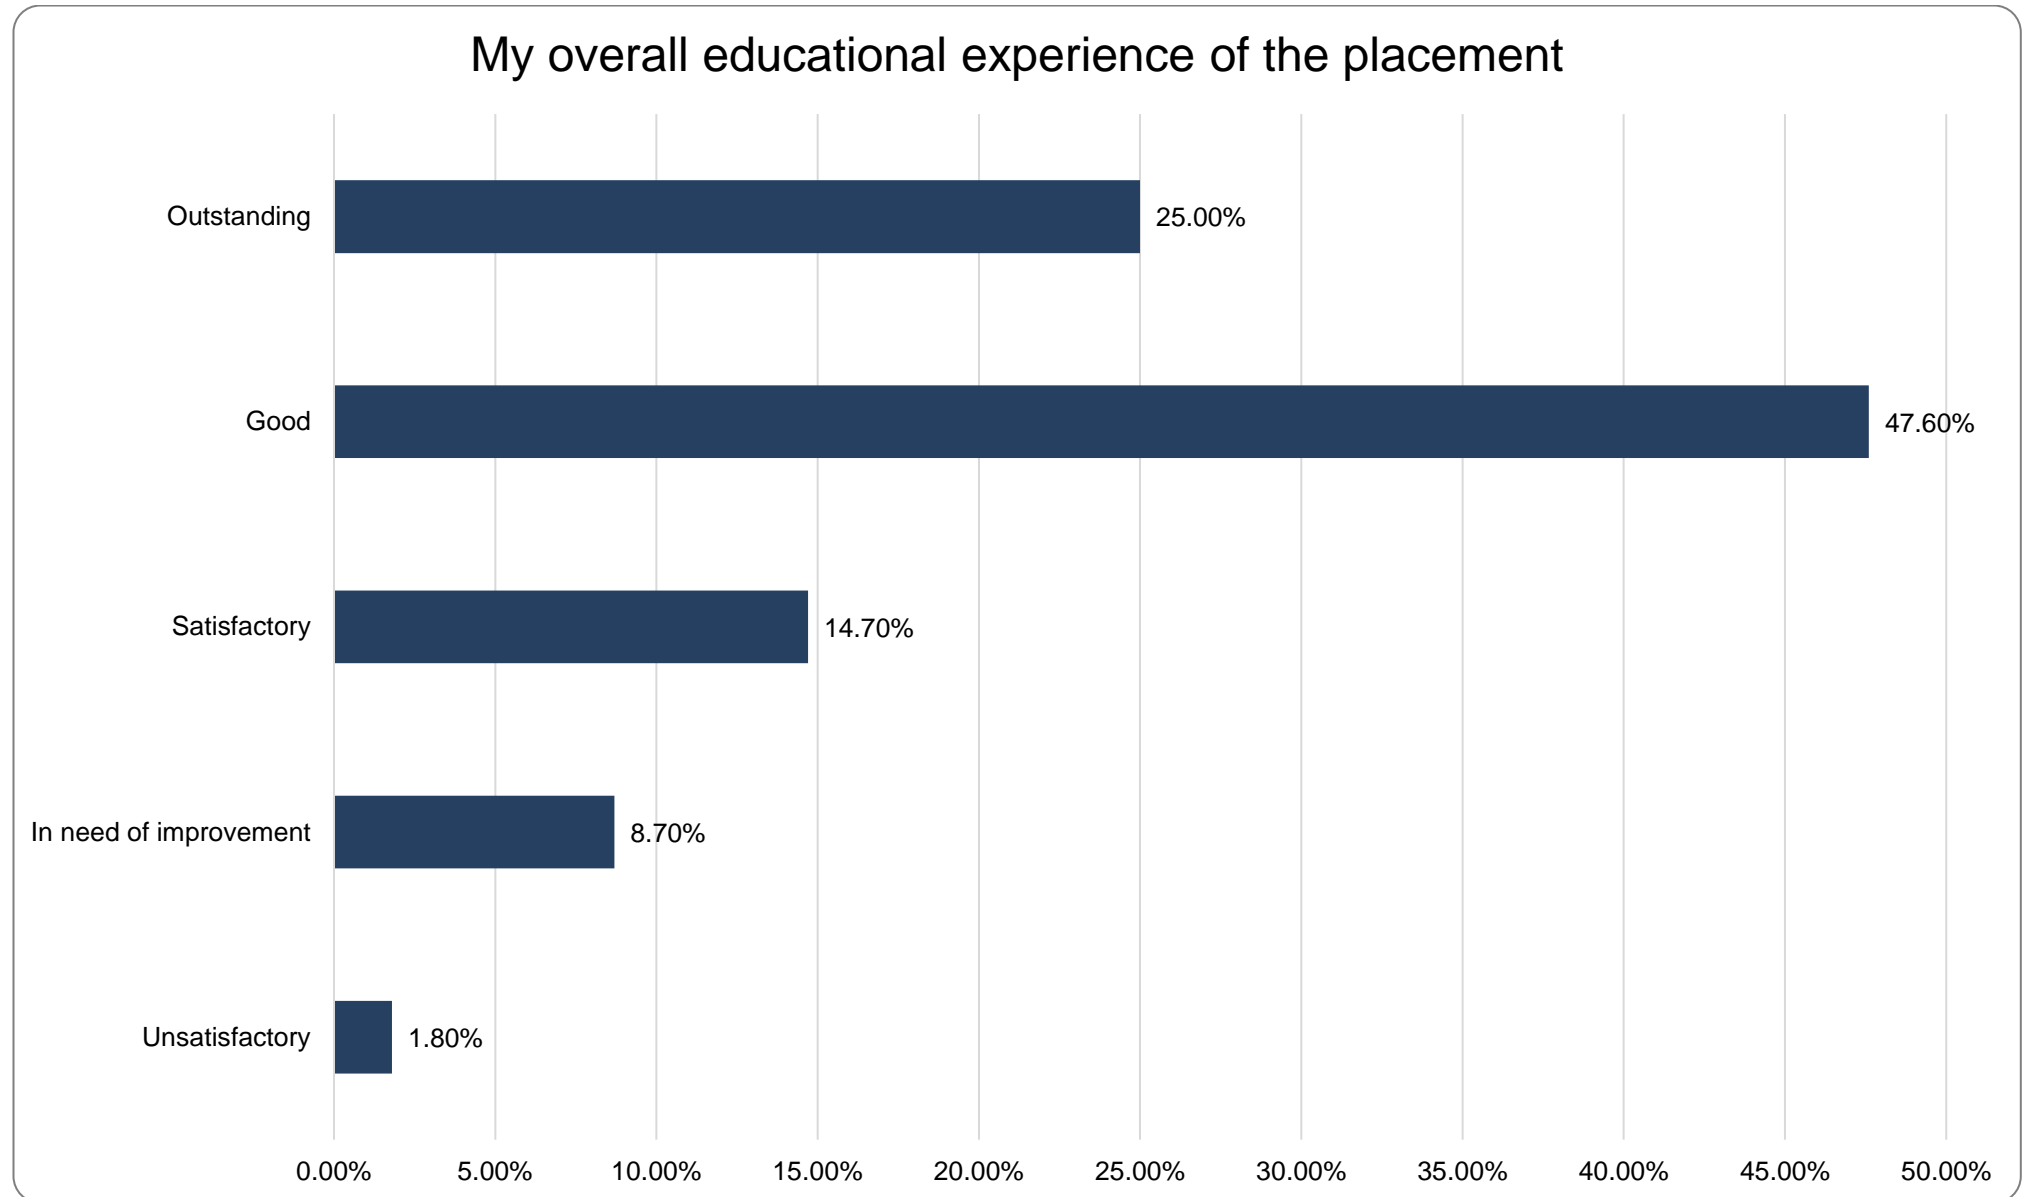

This report provides an initial overview of the responses received from all learners in the November 2019 survey. A further analytical breakdown of the results for different learner groups will follow in early 2020.

Response Rates

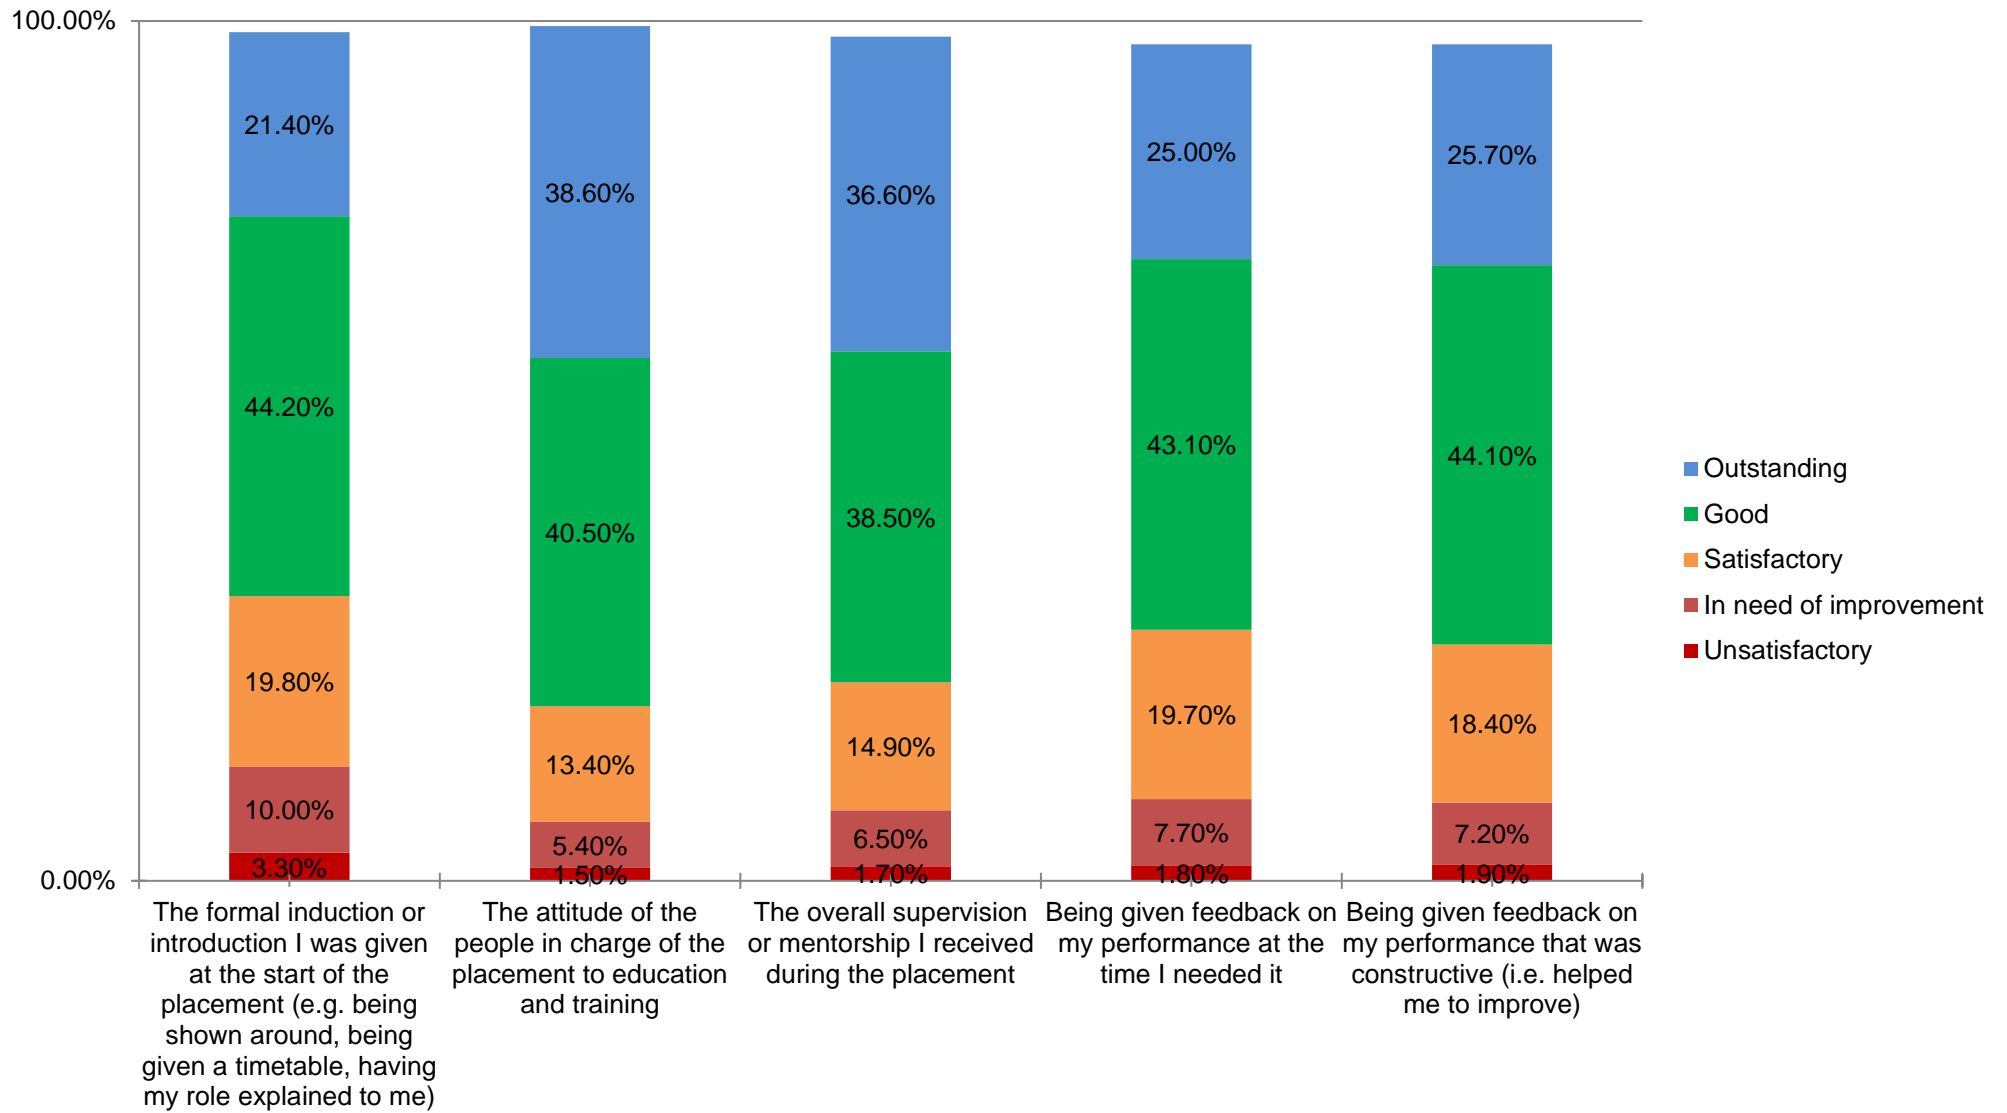

The overall number of responses for the November 2019 survey was 30,585. The number of responses for the South region was 5734. The table below shows a breakdown of these by learner group for the South. The majority of responses came from Medical and Dental trainees, as HEE are able to target these users directly via email. Work is on-going with various stakeholder groups to increase the response rate from the wider healthcare professions ahead of the next survey in June 2020.

| Advanced Clinical Practitioner | Allied Health Professional | Health care assistants and other support staff | Healthcare Scientists | Medical and Dental | Nursing, midwifery and health visiting staff | Scientific, therapeutic and technical |
|--------------------------------|----------------------------|--|-----------------------|--------------------|--|---------------------------------------|
| 11 | 87 | 7 | 24 | 5129 | 300 | 176 |

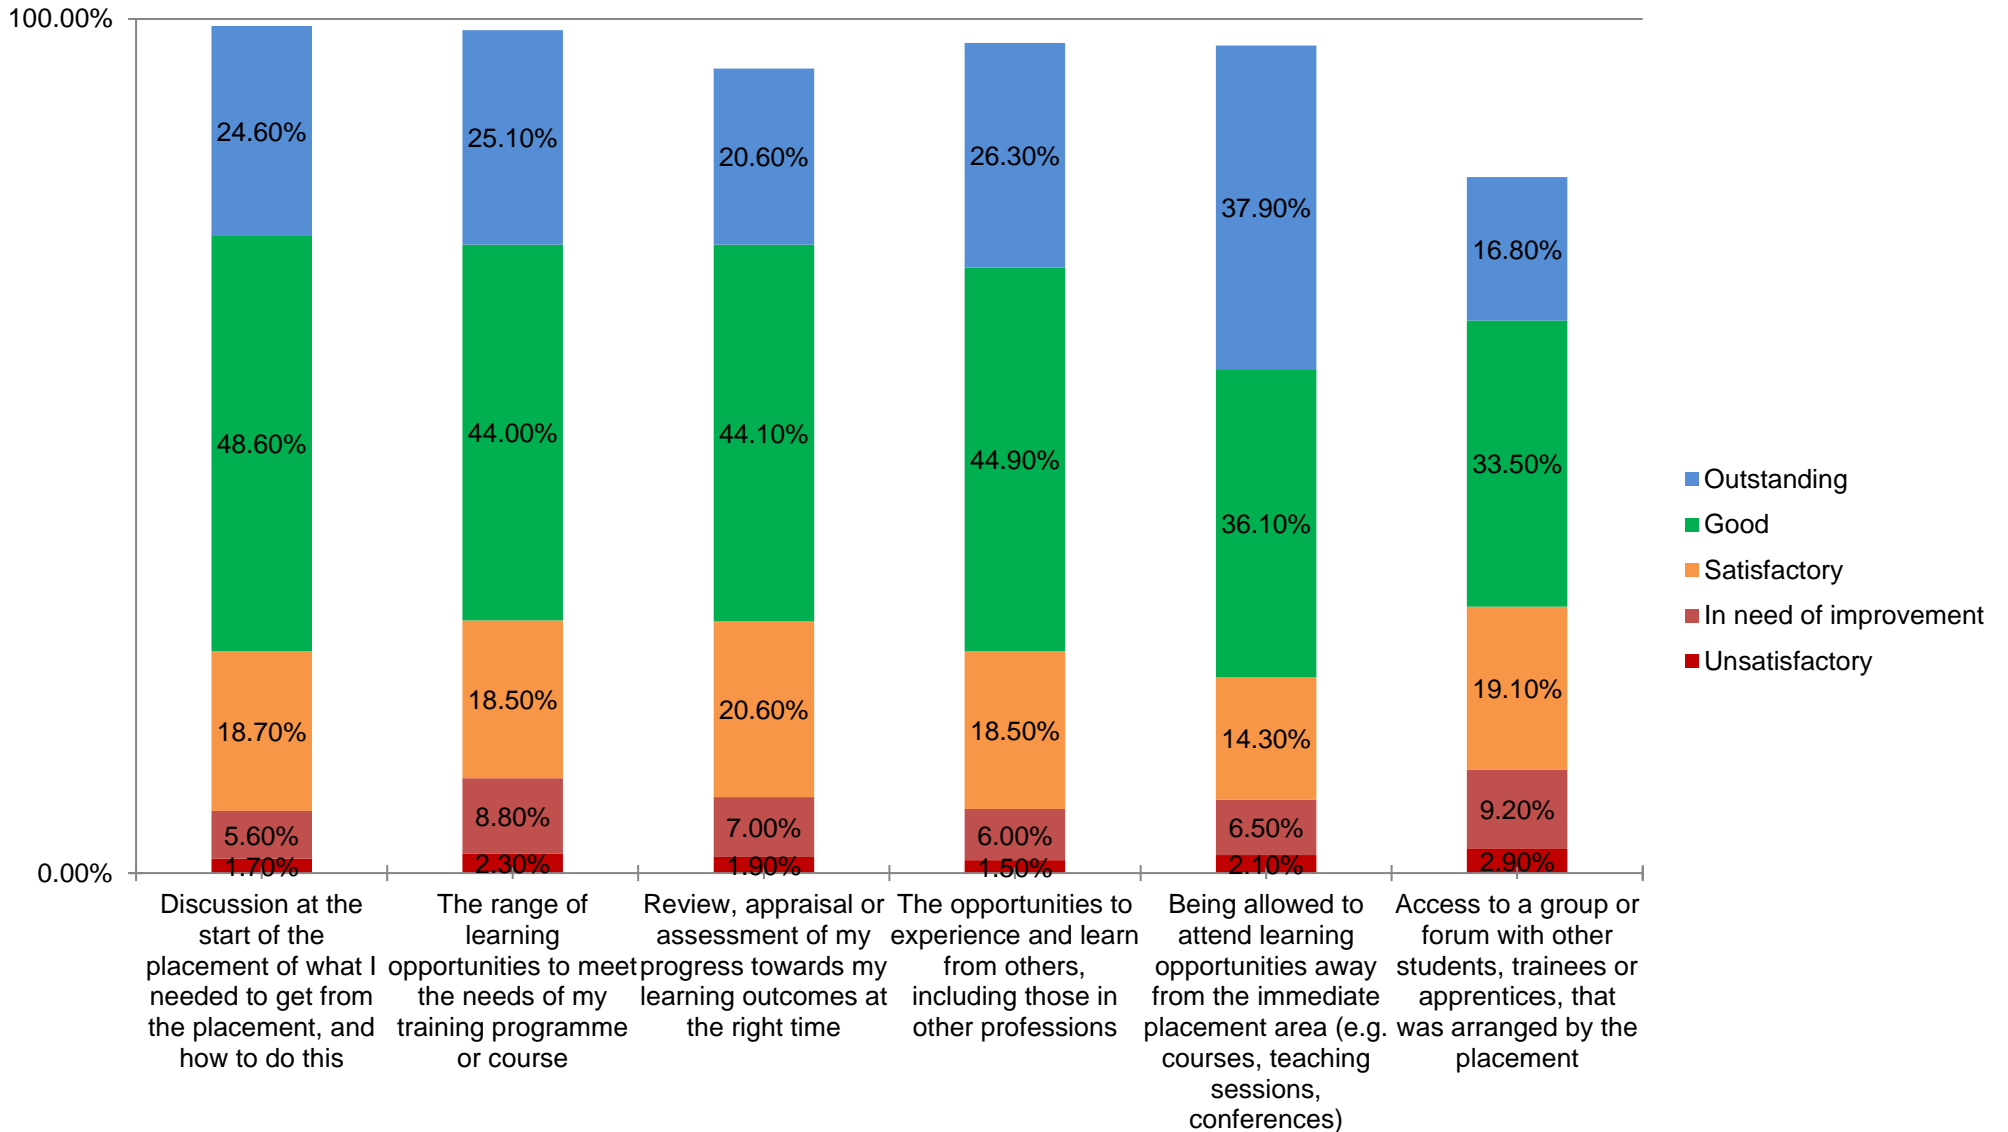

Section 1: Placement Quality

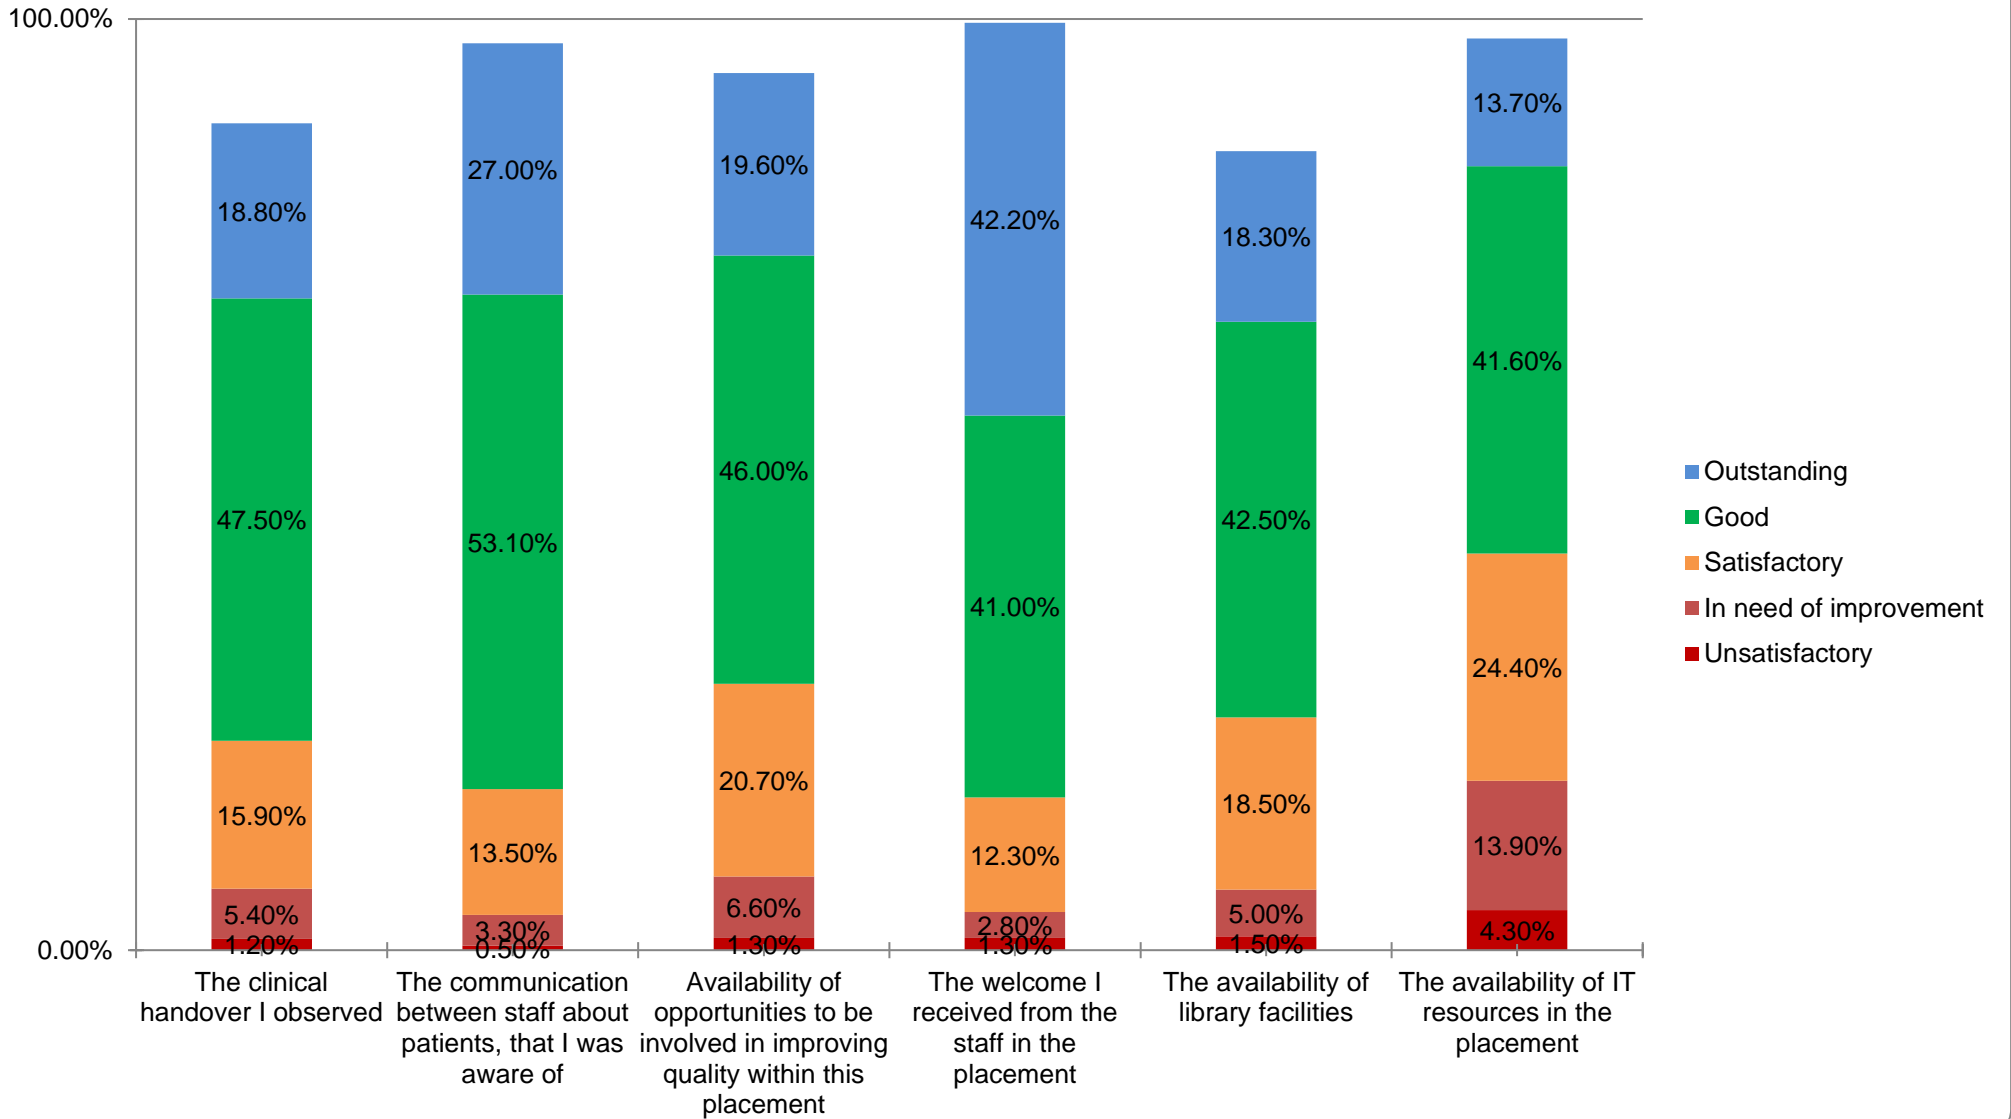

Please rate the quality of this placement or training post in the following areas:

Please rate the quality of this placement or training post in the following areas:

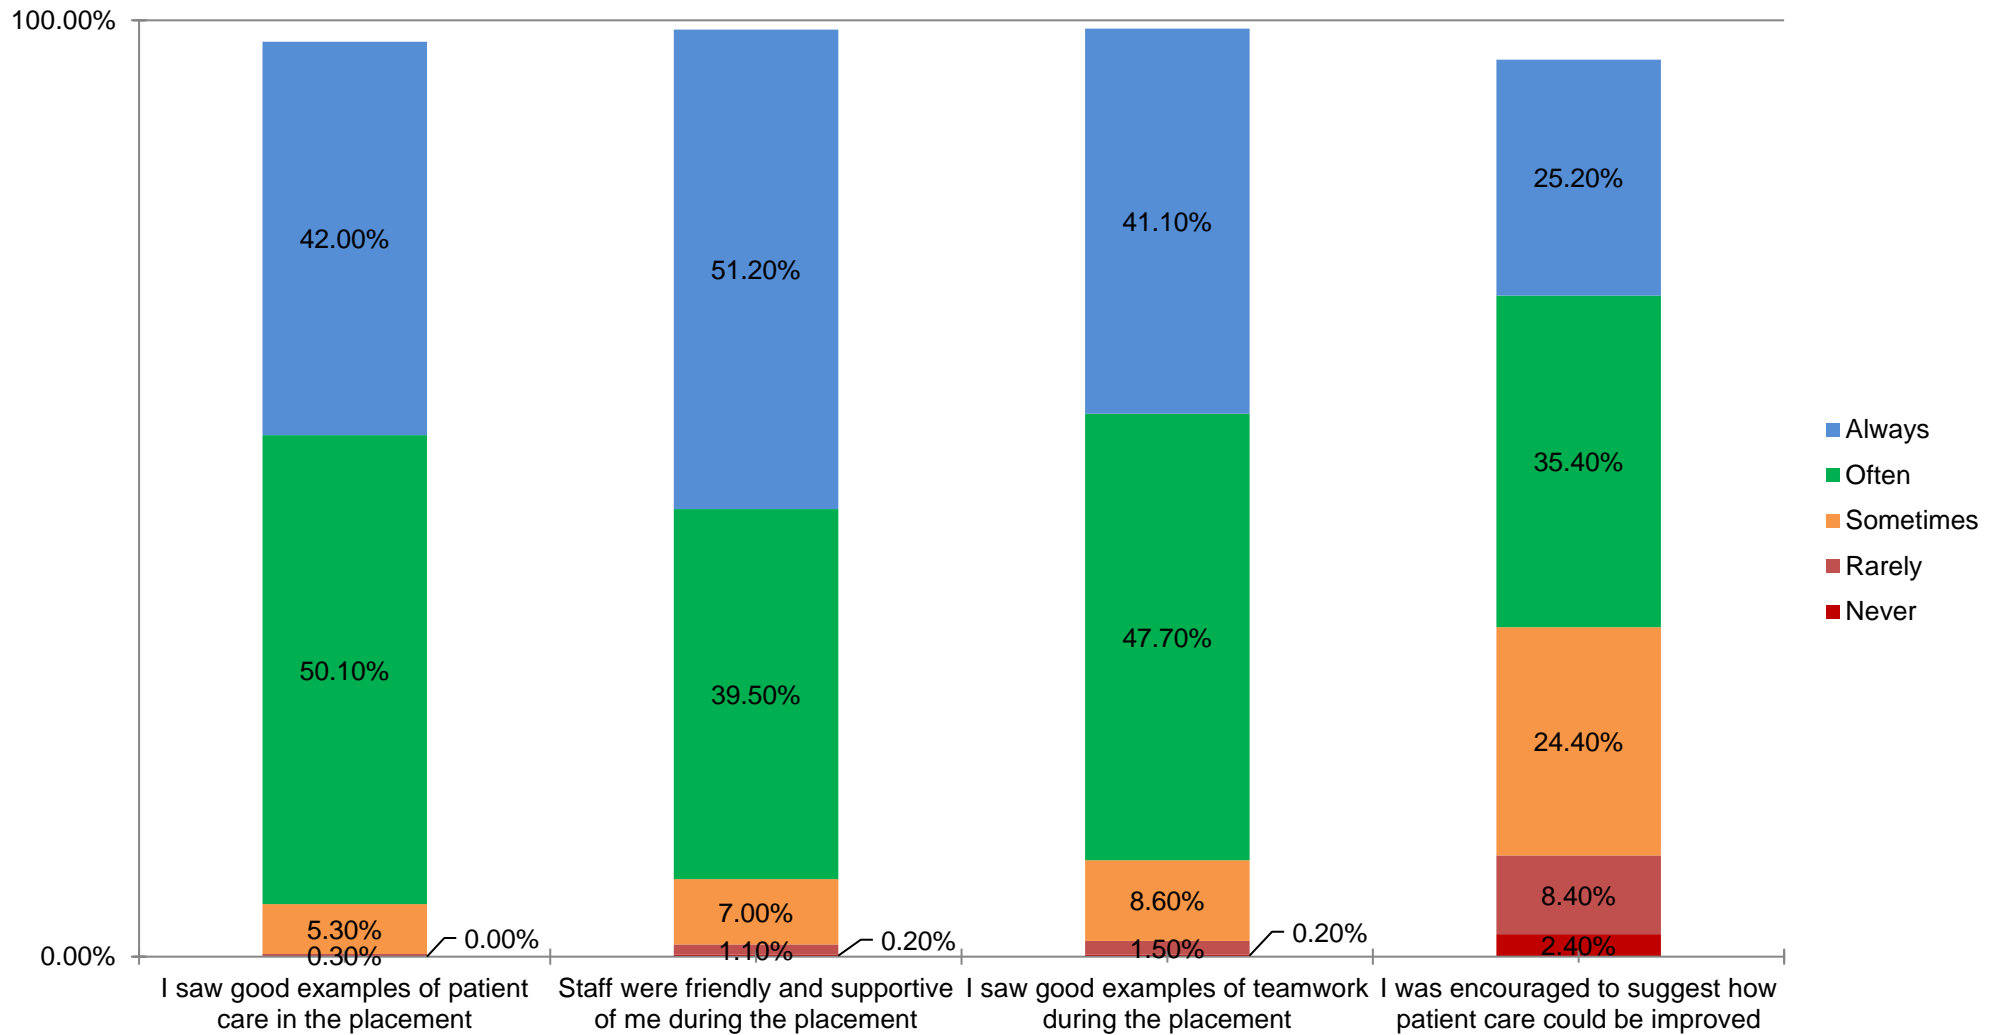

Please rate the quality of this placement or training post in the following areas:

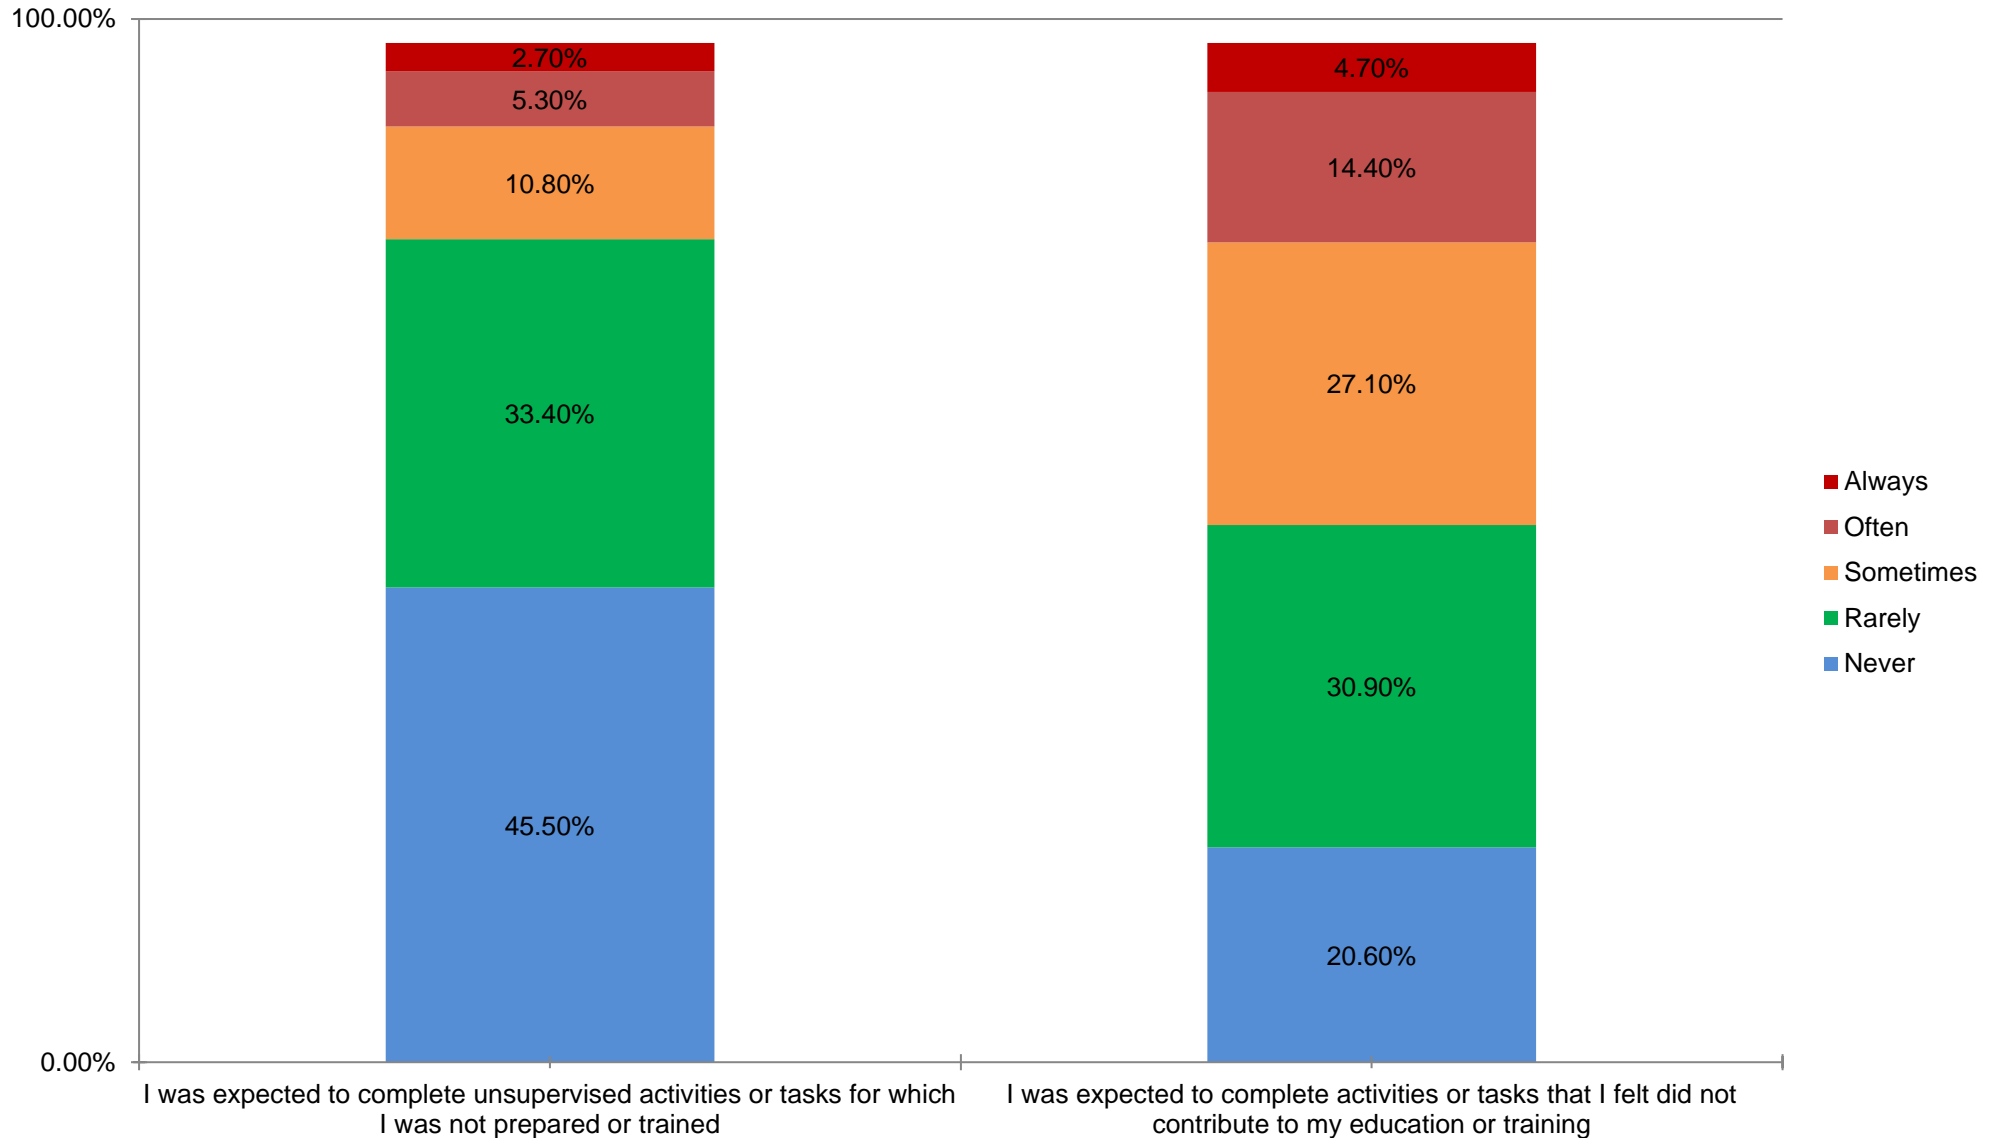

Section 2: Placement Experience

Please indicate how often you experienced or saw each of the following in this placement:

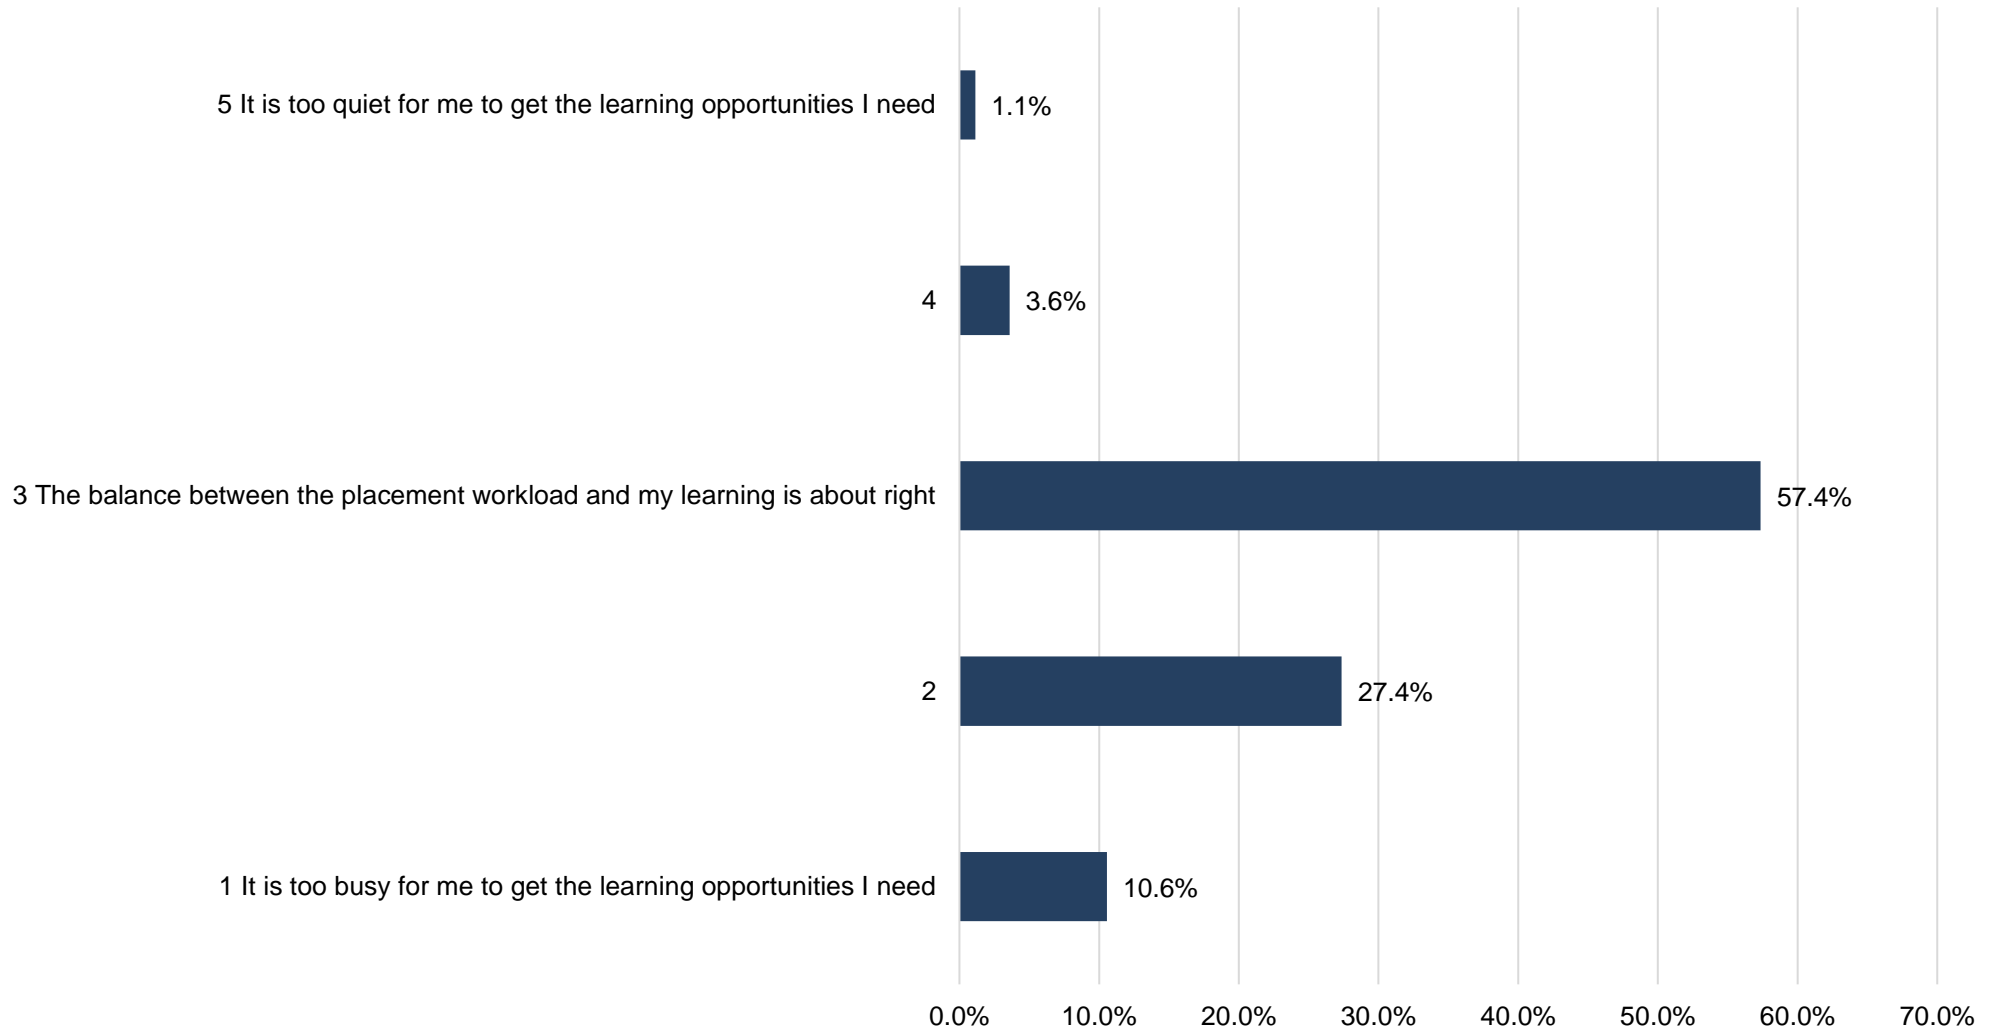

Please indicate how often you experienced or saw each of the following in this placement:

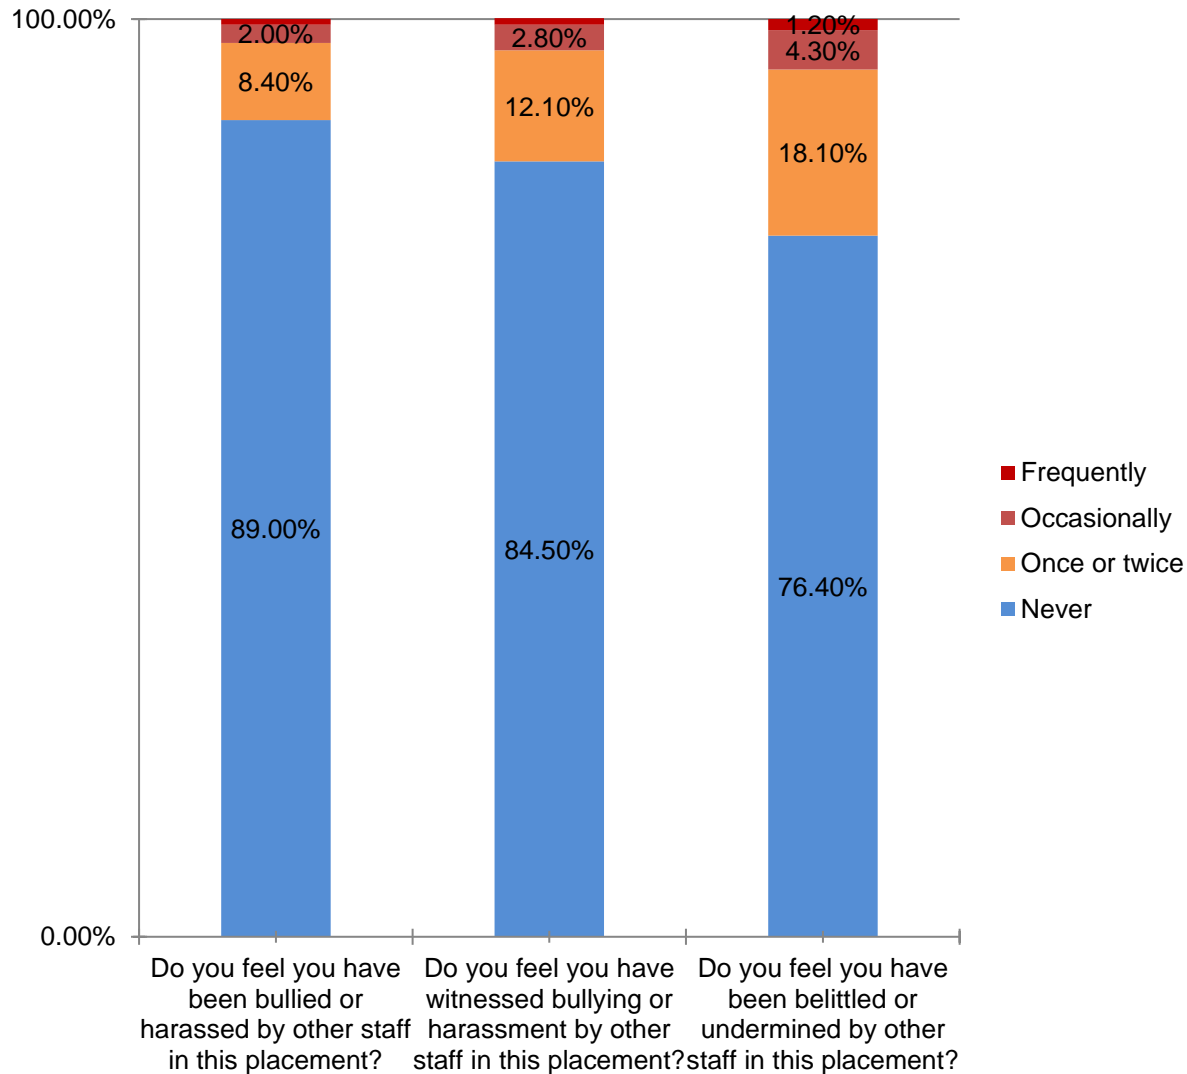

Section 3: Workload

Overall, how does the workload of the placement affect your learning in the placement?

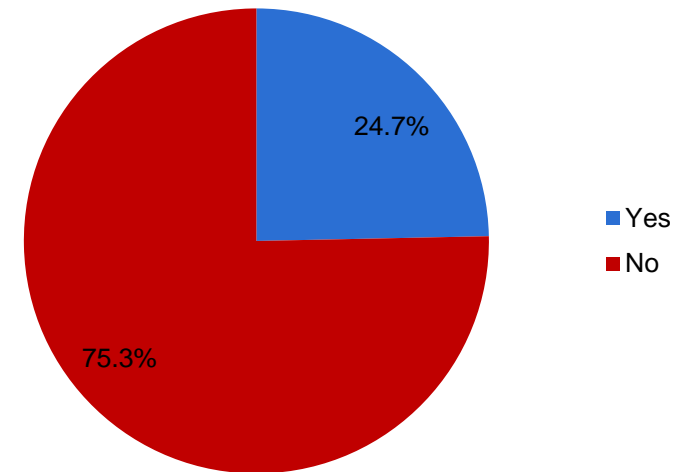

Section 4: Bullying and Undermining Behaviour

Please complete the following:

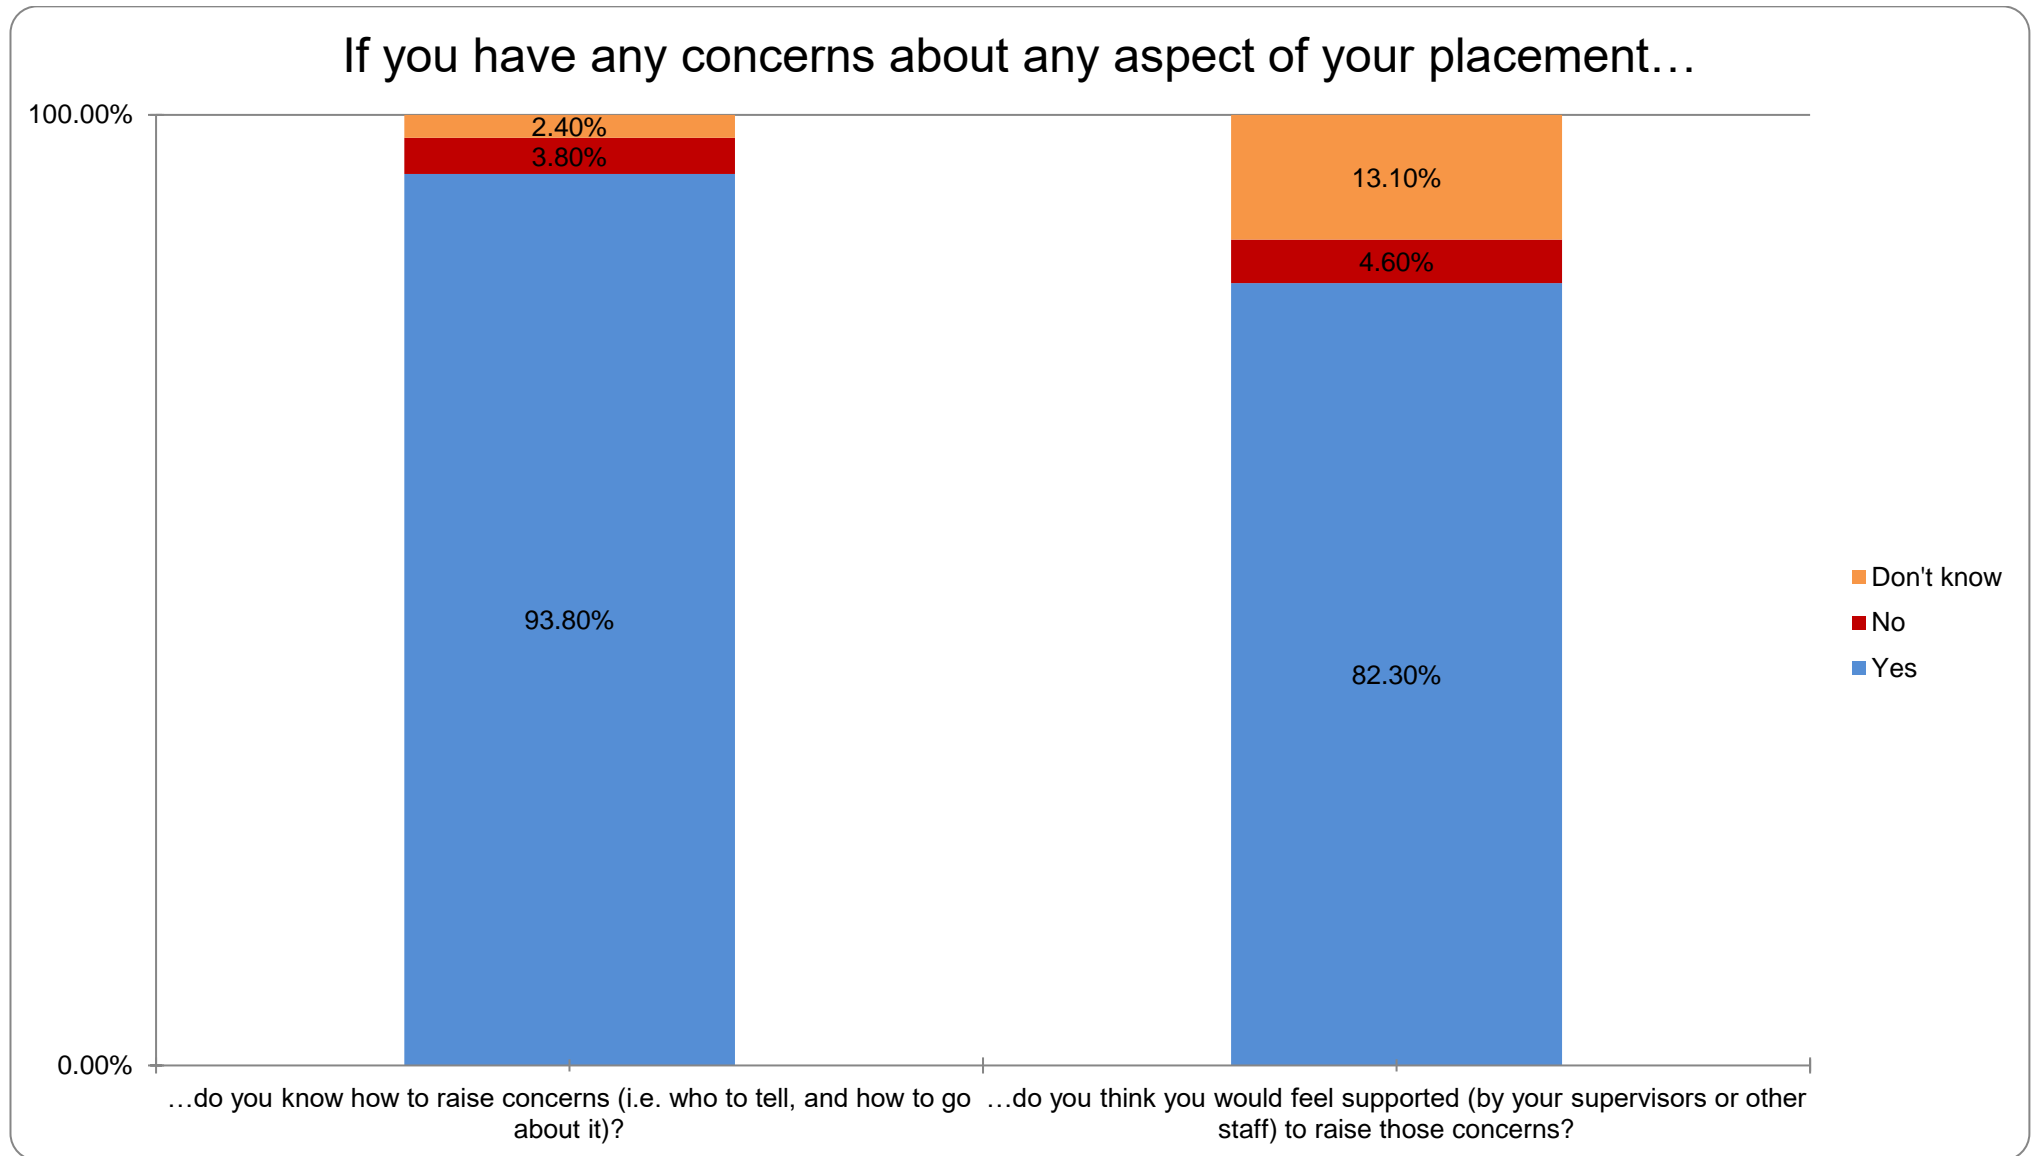

Where learners indicated that they had experienced or witnessed bullying, undermining or belittling behaviour:

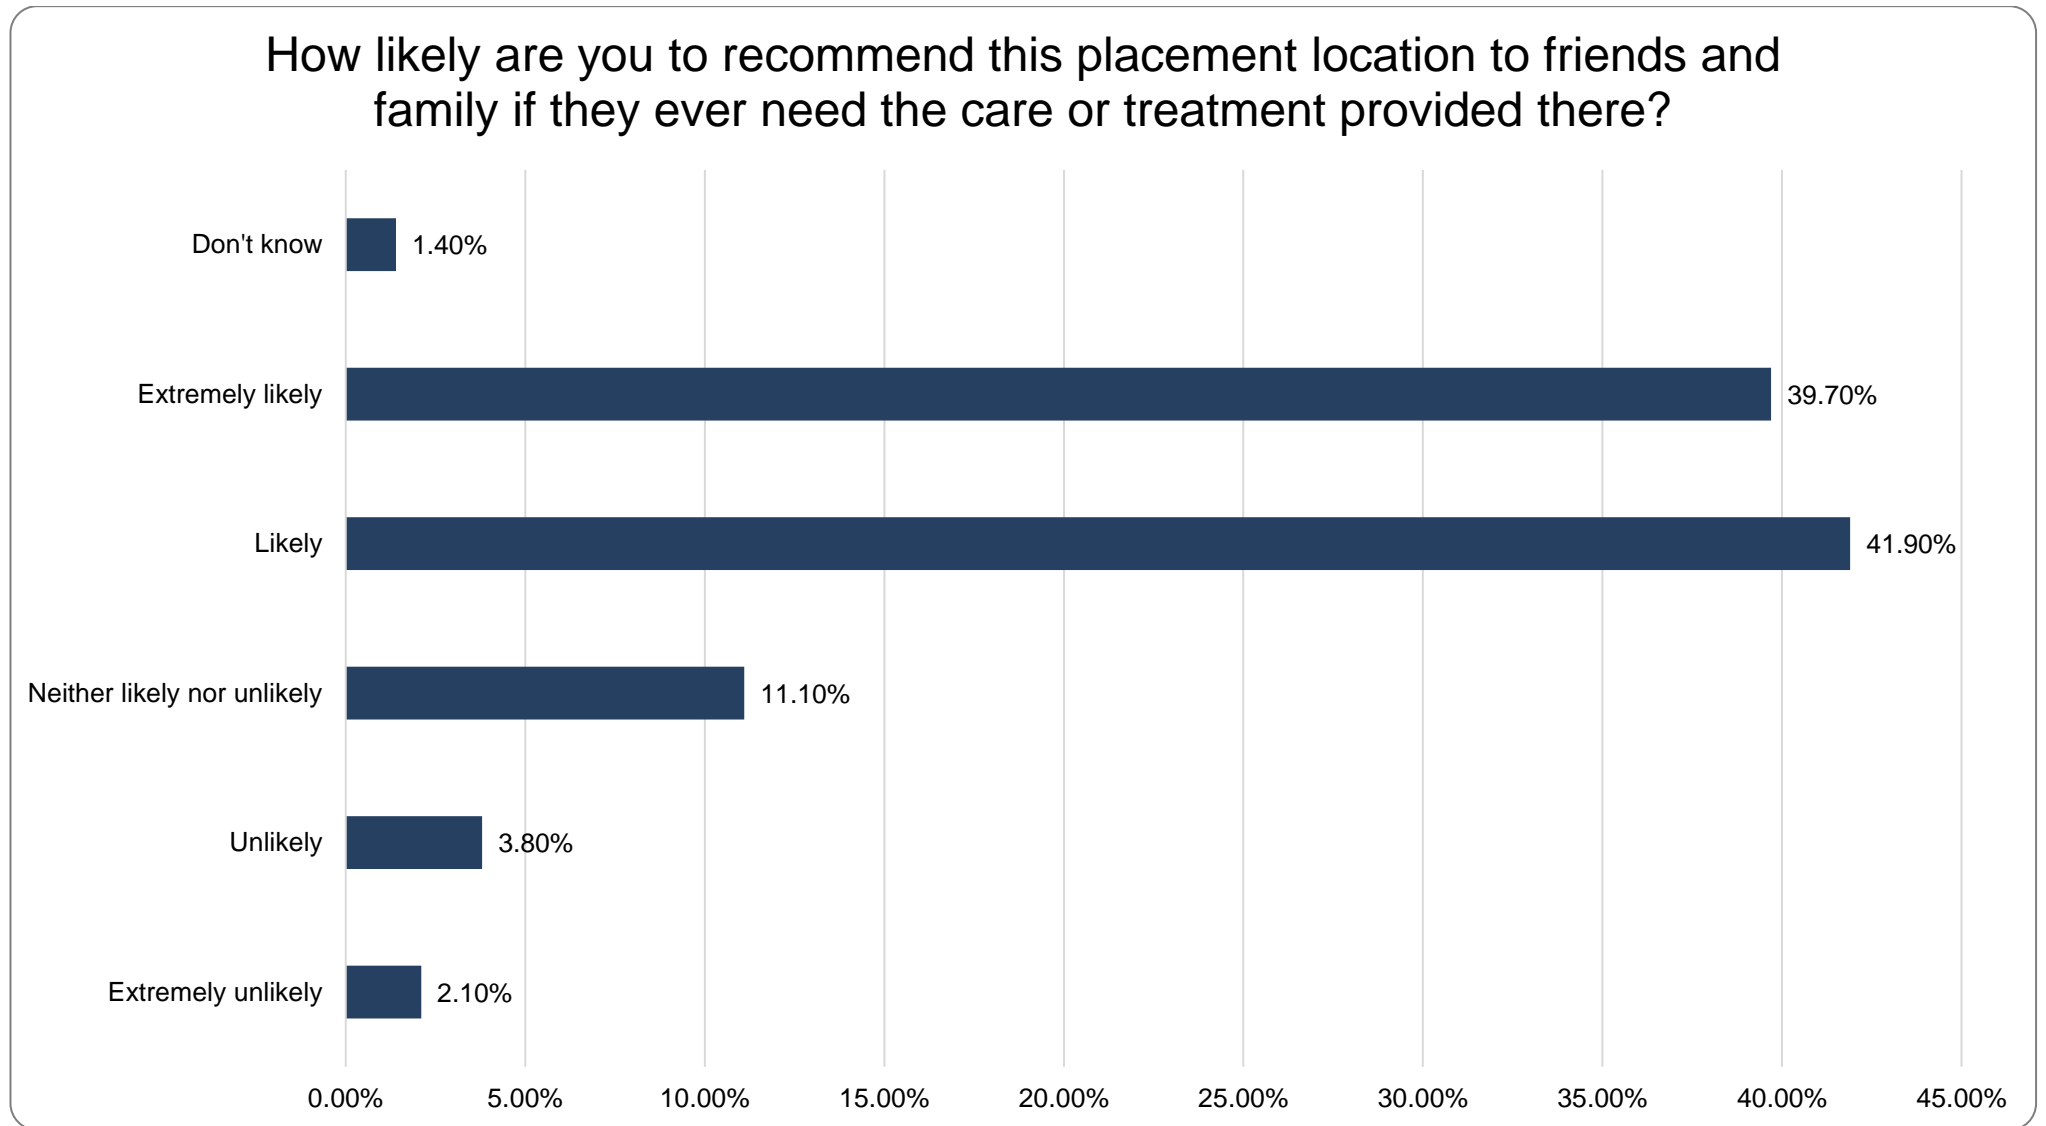

Have you reported this experience with your placement provider or university?

Section 5: Raising Concerns

Section 6: Recommending Your Placement

How likely are you to recommend this placement to friends and colleagues as a place to work or train?
