The plots above show the GMC Survey mean score values for 2016. The purpose of this is to show ranking for each indicator by region and HEE local area/deanery area. The large unbracketed number shows the UK rank of the mean score for that indicator. If certain columns have repeating rankings (e.g. two '5's) then this is due to the total mean score being the same for 2 HEE local areas/deaneries resulting in a shared rank.
