

## 2017 National Rank by HEE Local Office/Deanery (England)

This report provides results for all trainees based on their HEE local office for the 2017 National Training Survey. Each HEE local office is assigned a ranking (1-13) for each indicator compared to other HEE local offices in England. For example: Health Education Kent, Surrey and Sussex compared to all English trainees.

The plots above show the GMC Survey mean score values for 2017. The purpose of this is to show ranking for each indicator by region and HEE local area/deanery area. The large unbracketed number shows the UK rank of the mean score for that indicator. If certain columns have repeating rankings (e.g. two '5's) then this is due to the total mean score being the same for 2 HEE local areas/deaneries resulting in a shared rank.
