

Origami Instructions - Group 2

Fold the model in half vertically (mountain fold to create left and right side of swan). Rotate quarter turn.

Gently pull the neck and head of the origami swan away from the body. Done.

Fold the left and right edges of the paper to meet the central crease made above.

Fold the model in half so the sharp point meets the corner on the opposite side (align the red dots).

Congratulations - you have made a swan

Take a square sheet of paper. Fold in half on the diagonal. Unfold.

Turn the paper over and repeat: fold the left and right edges to meet the central crease.

Fold the sharp point back again about a third of the way; exact distance not important.
