

# NETS 2024 Education Quality Data Tool

2024 | National Education and Training Survey | Education Quality Reporting Data Tool

[Introduction](#) | [Region](#) | [Organisation](#) | [Professional Group](#) | [Subject / Specialism](#) | [Questions](#)

The NETS is the only national survey open to all students, doctors, and dentists undertaking a practice placement or training post in healthcare services across England.

The NETS offers a unique insight into the multi-professional practice learning environment and the experience of the current and future health and care workforce.

The survey was open from **1st October 2024 - 26th November 2024**

Professional Group	Respondents
Advanced Practice	1296
Allied Health Professional	4049
Dental Postgraduate	1112
Dental Undergraduate	155
Health and Social Care	758
Healthcare Science	739
Medical Associate Professions (MAPs)	160
Medicine Postgraduate	22384
Medicine Undergraduate	1466
Midwifery	2141
Nursing	7031
Pharmacy	1167
Psychological Professions	1105
<b>Total</b>	<b>43563</b>

This online data tool has been developed to allow stakeholders to view, evaluate and act on the responses to the most recent NETS survey.

**Data Masking Policy**

To maintain anonymity and privacy of respondents, masking has been applied so that where there are less than three respondents results aren't published.

# Introduction

This year's NETS saw the highest response rate since its launch in 2019, making it our most comprehensive dataset yet.

As the only national survey open to all undergraduate and postgraduate students and trainees undertaking a practice placement or training post in healthcare, NETS results provide critical insights into the quality of the learning environment through the eyes of the learners.

This information helps us work collaboratively, both regionally and nationally, with education providers and placement organisations to enhance learning conditions for all healthcare learners.

We're very grateful to all the learners who shared their insights that will play a vital role in shaping the

future of healthcare education and training.

We invite you to explore the results and see how learner experiences are shaping the future of healthcare education.

We hope you find this user guide to the education quality reporting data tool helpful in navigating through the breadth of information available, along with providing information about how the NETS data is scored, grouped and calculated.

[Education quality reporting data tool](#)

# Survey changes

Over the years we have continued to refine the survey. Below shows the key changes made to the survey since 2021.

## 2021

Nursing and Midwifery numbers were no longer combined.

## 2022

Psychological Professions were removed from the 'Scientific, Therapeutic and Technical' category and made an individual group.

Introduction of wellbeing questions.

Introduction of EDI discrimination questions.

## 2023

The 'Scientific, Therapeutic and Technical' group was removed with professions included moved into existing more appropriate categories following consultation with relevant professional leads.

MAPS included into the survey as a separate professional group.

Introduction of sexual safety questions in line with the launch of the NHS England sexual safety charter. Introduction of the sexual safety indicator.

## 2024

Amendment to the sexual safety questions to distinguish unwarranted behaviours from staff and patients.

Review undertaken of all indicators and the introduction of three new indicators; wellbeing, discrimination and raising concerns.

# Key changes to the 2024 NETS Education Quality Data Tool

A change to the look and feel of the pages

The introduction of a new technical handbook.

The introduction of a 'hover' information button which explains each page.

New page to view benchmarked trust/organisation level data by indicator.

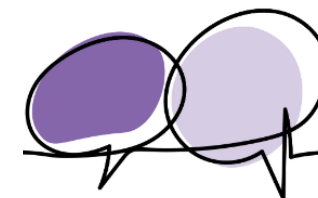

A new filter bar.

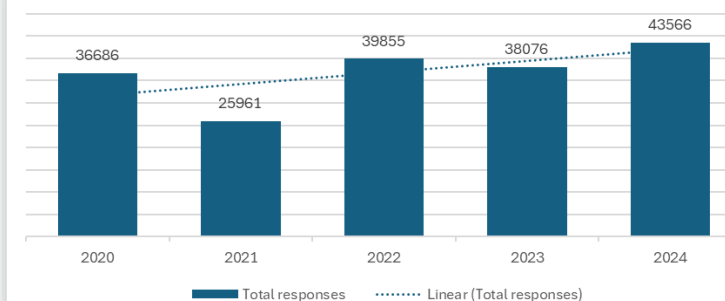

A revised professional level view of the data. Inclusion of three new indicators.

This year more learners completed the National Education and Training Survey than ever before.

We each have  
**a voice that counts**

Total NETS learner responses 2020 - 2024 (National)

# How the data is grouped and scored by indicator

Questions are grouped by theme to measure how learners responded about that aspect of training. These themes are grouped into indicators.

The answer to each question is given a numerical value (e.g. Q39.1. I saw examples of safe care: never 0, rarely 25, sometimes 50, often 75, always 100).

We average the scores of questions in the indicator to create an indicator score (a score out of 100).

N/A responses are not included and so do not count towards an individual's score for that indicator.

To protect learner anonymity masking for the indicators is applied at  $N \geq 3$ .

## Example: Induction Indicator

Q35. At the start of this placement / training post, I had the opportunity to discuss and agree my learning needs with a supervisor, practice assessor / practice supervisor or senior colleague.

Yes

100

No

0

Q36.1. The formal induction I was given at the start of the practice placement or training post (e.g. being shown around, being given a timetable, having my role explained to me)

Outstanding

100

Satisfactory

75

Good

50

In need of improvement

25

Unsatisfactory

0

Learner A's average score for induction is  
 $(100+50) / 2 = 75$

# How questions are scored

## Question level data

Data is shown at question level for core questions only.

The questions are calculated based on the percentage of learners giving a positive answer (e.g. Q39.1. I saw examples of safe care: positive answers always and often, Q37.4. The availability of learning and IT resources to meet my learning outcomes: positive answers outstanding, good, satisfactory).

N/A responses are included in the overall scores.

This data is available in the NETS education quality data tool, see 'Questions – Core Questions'.

### Example: Question 36.1

Total numbers of learners providing a response to the question...

Question response	N=
Outstanding	100
Satisfactory	400
Good	700
In need of improvement	300
Unsatisfactory	50
NA	20
<b>Total learner responses</b>	<b>1570</b>

The total % of learners providing a positive answer to Q36.1 is 76.4%

Question response	%=
Outstanding	6.4%
Satisfactory	25.5%
Good	44.5%
In need of improvement	19.1%
Unsatisfactory	3.2%
NA	1.3%
<b>Total</b>	<b>100%</b>

# About the outliers

Outliers are scores that are significantly higher or lower than the average score, these are shown in red or blue.

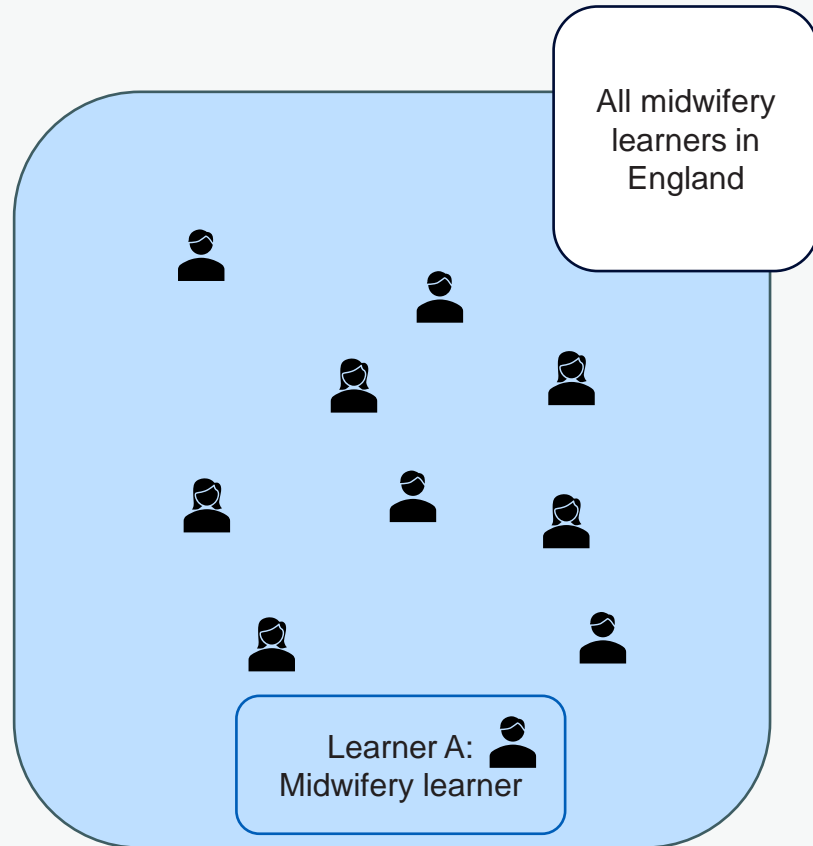

The dashboard provides outliers in relation to education quality indicators, organisation types, professions, subjects and specialisms.

Each cell contains the mean score and a colour which indicates if the score is an outlier.

- Red: a red outlier is a score in the bottom quartile (Q1) of the benchmark group, and the confidence interval does not overlap with that of the benchmark mean.
- Pink: a score in the bottom quartile (Q1), but the confidence interval overlaps with that of the benchmark mean.

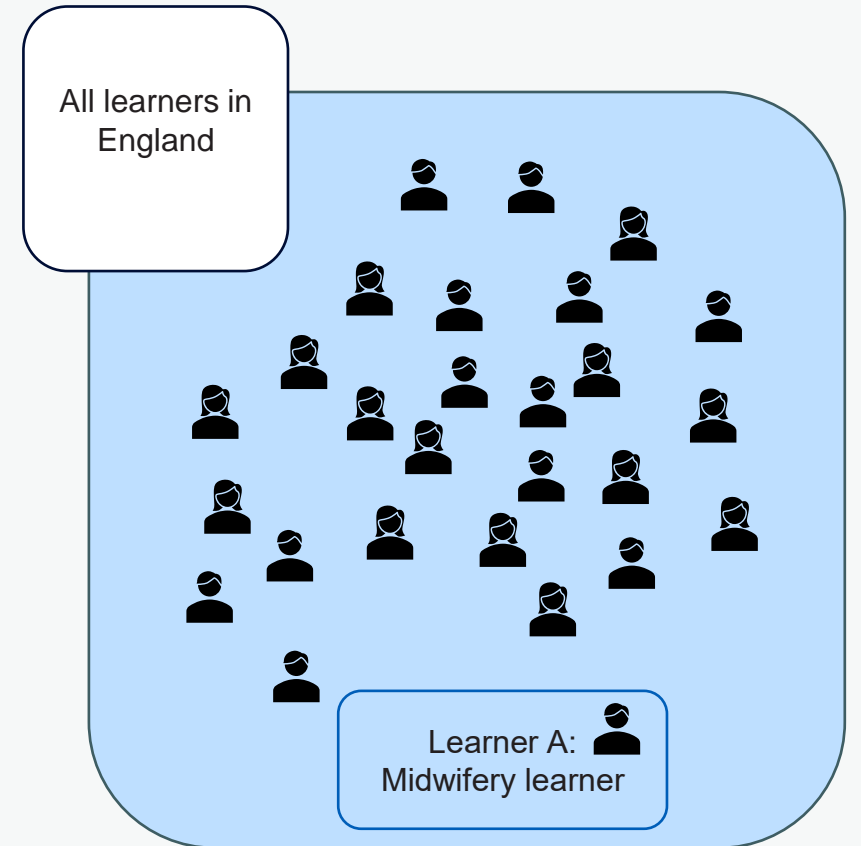

- White: a score in between the top and bottom quartiles of the benchmark group.
- Light blue: a score in the top quartile (Q4), but the confidence interval overlaps with that of the benchmark mean.
- Blue: a green outlier is a score in the top quartile (Q4) of the benchmark group, and the confidence interval does not overlap with that of the benchmark mean.
- Grey: fewer than three results ( $n < 3$ ). We only report results which have three or more responses.

# Benchmarks

Benchmarks are calculated dependent on the reporting group and the page you are reviewing on the education quality data tool.

Benchmarks are calculated at either a national level or subject / specialism level.

# NEW Menu Bar

## Introduction

Brief introduction to the reporting tool.

## Region

Indicator level data at national, regional and ICB level.

## Organisation

This year we have introduced new ways to view results linked to subject and or specialism.

Users can navigate through three pages to view results by...

... subject/specialism at national and regional level

... subject/specialism at organisation level

... subject/specialism at site level

'Click' subject/specialism' to view the pages available, then simply click on the page you wish to view.

Use the open filter button **Open Filter Panel** to filter/search by region, ICB/system, professional group, subject, organisation and higher education institution. For the site page you can also filter/search by site.

Benchmarking for organisation and site pages is applied at subject/specialism level.

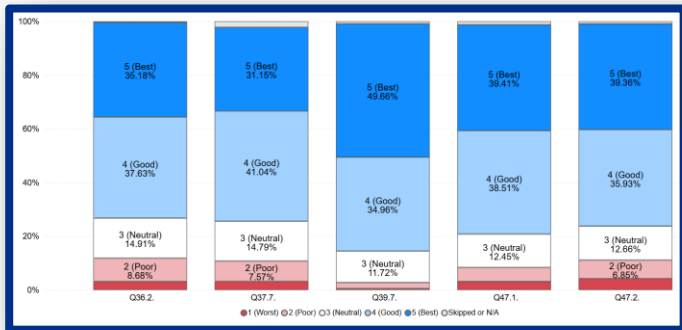

# Question level data: Core questions

2024 | National Education and Training Survey | Education Quality Reporting Data Tool

Introduction | Region | Organisation | Professional Group | Subject / Specialism | **Questions**

Core Questions  
Professional Group Questions  
Recommend for Care or Training  
Retention

New for this year, the ability to view question level responses as a chart.

Site Region: All | System / ICB: All | Higher Education Institution: All | Professional Group: All

Subject and Specialism: All | Organisation: All | Site: All | Outcome?: All

**Indicator**

- Bullying & Undermining
- Discrimination
- Facilities
- Induction
- Overall Experience
- Quality of Care
- Raising Concerns
- Sexual Safety
- Supervision
- Teaching & Learning
- Teamworking
- Wellbeing
- Workload

**Questions**

- Select all
- Access to a group or forum with other students, trainees or apprentices, that was arranged by the practice placement or training post
- At the start of this placement / training post, I had the opportunity to discuss and agree my learning needs with a supervisor, practice...
- Being allowed to attend learning opportunities to meet my curriculum or course requirements
- Being given feedback on my performance at the time I needed it
- Being given feedback on my performance that was constructive (i.e. helped me to improve)
- Did the organisation deal with the discrimination?
- Did the organisation deal with your experience of bullying and harassment?
- Did you report the bullying and harassment you experienced or witnessed to your practice placement provider, training post provider...
- Did you report the discrimination?
- Did you report the inappropriate sexual behaviours that you have experienced/witnessed?
- Do you feel comfortable raising concerns?
- Do you feel that appropriate and timely action against alleged perpetrators was taken?

Chart | Table

Indicator	Question	1 (Worst)		2 (Poor)		3 (Neutral)		4 (Good)		5 (Best)		Skipped or N/A	
		%	Count	%	Count	%	Count	%	Count	%	Count	%	Count
Overall Experience	How likely are you to recommend this practice placement or training post location to friends and family if they ever need the care or treatment provided there?	3.15%	1372	5.23%	2277	12.45%	5423	38.51%	16776	39.41%	17167	1.26%	548
	How likely are you to recommend this practice placement or training post to friends and colleagues as a place to work or train?	4.28%	1866	6.85%	2982	12.66%	5514	35.93%	15652	39.36%	17145	0.93%	404
	Staff were welcoming, supportive and friendly throughout the practice placement or training post	0.56%	242	2.21%	964	11.72%	5106	34.96%	15228	49.66%	21634	0.89%	389
	The extent to which I feel the people in charge value education and training	3.19%	1389	8.68%	3780	14.91%	6496	37.63%	16394	35.18%	15325	0.41%	179
	The overall educational experience I gained in my current or most recent practice placement / training post	3.22%	1402	7.57%	3299	14.79%	6445	41.04%	17879	31.15%	13572	2.22%	966

For 2024 we have introduced a new filter pane to help user find specific questions.

Choose a chart or table view Chart | Table

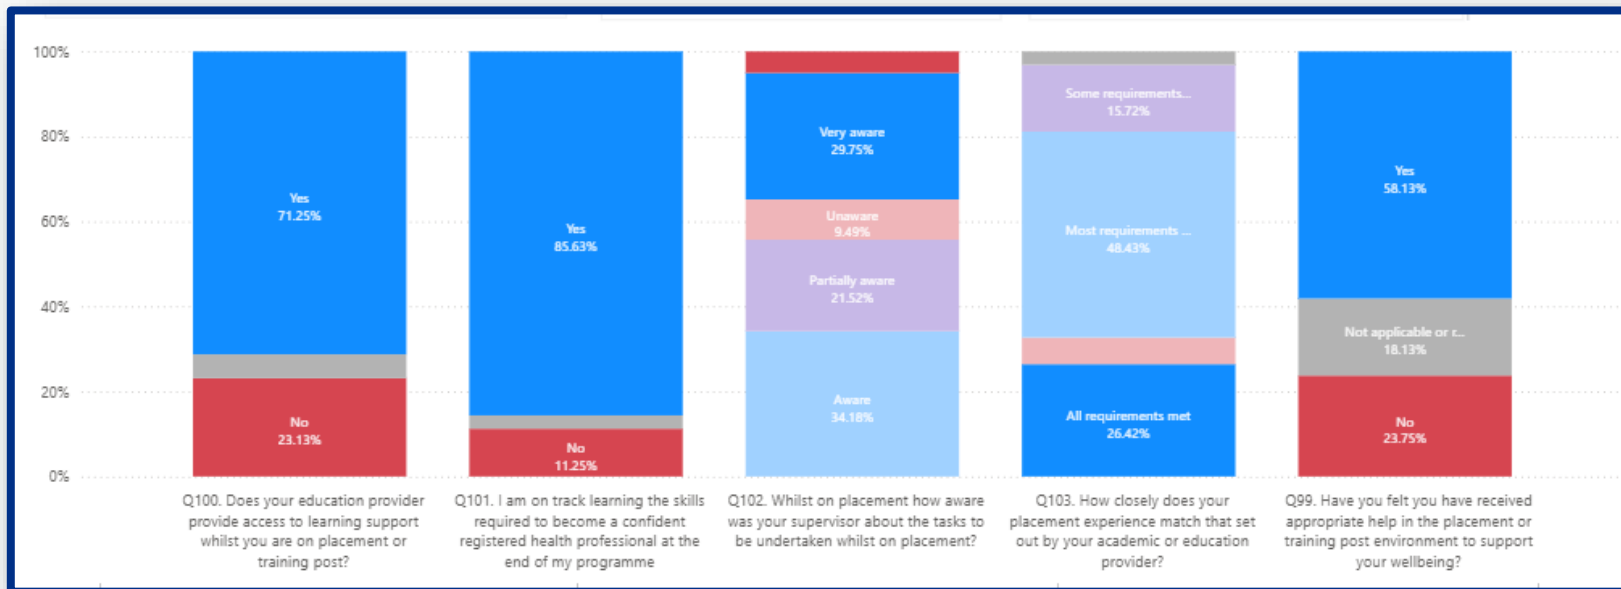

# Question level data: Branching questions

2024 | National Education and Training Survey | Education Quality Reporting Data Tool

Introduction | Region | Organisation | Professional Group | Subject / Specialism | **Questions**

Core Questions  
Professional Group Questions  
Recommend for Care or Training  
Retention

A suite of new pages have been added which show the results for the profession specific branching questions. Use the drop list (shown to the left) to view the results of specific learner group questions.

Professions ▾

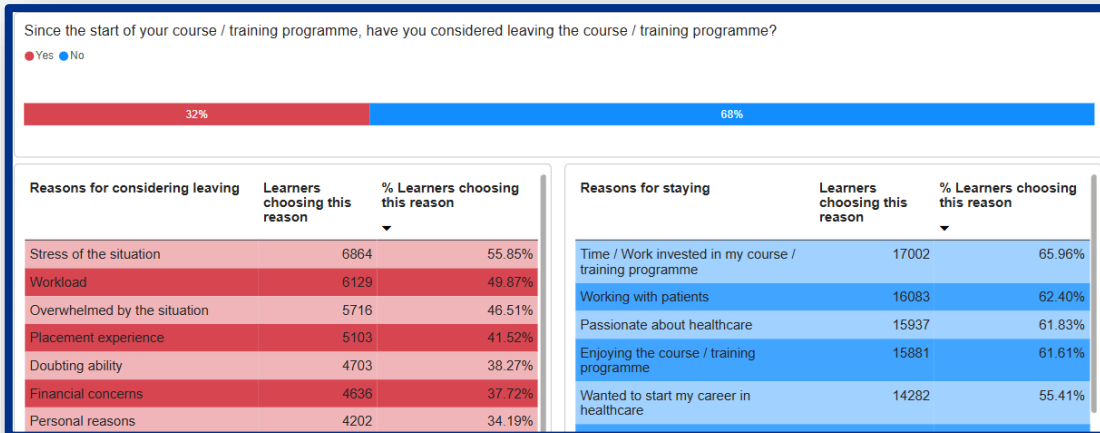

- Advanced Practice
- Allied Health Professionals
- Dental
- Healthcare Scientists
- Independent Sector
- MAPs
- Medical Postgraduate
- Midwifery
- Nursing
- Paramedicine
- Pharmacy

# Question level data: Recommend questions

2024 | National Education and Training Survey | Education Quality Reporting Data Tool

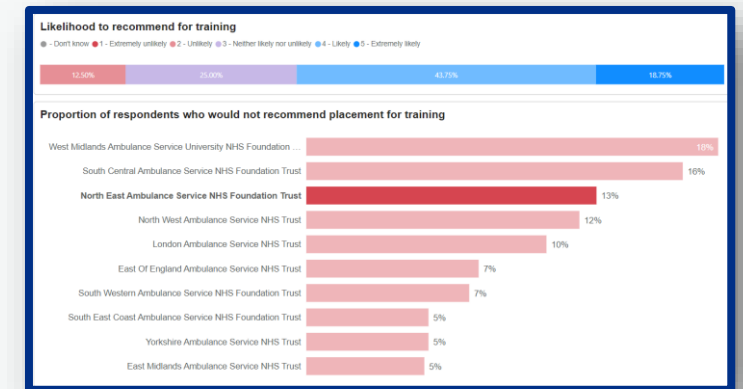

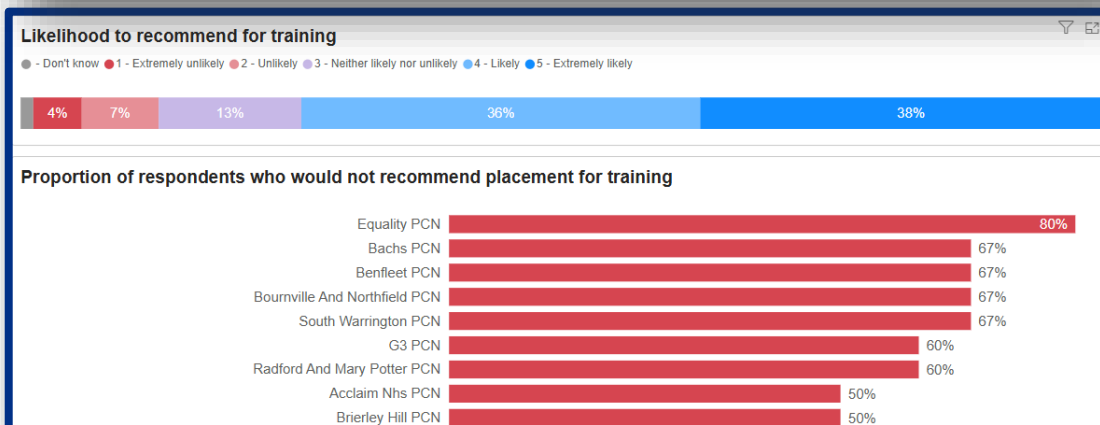

Introduction | Region | Organisation | Professional Group | Subject / Specialism | **Questions**

Core Questions  
Professional Group Questions  
Recommend for Care or Training  
Retention

This page provides users with a simple to use visual showing the recommend for training, recommend for care and considered leaving questions.

Use the open filter button **Open Filter Panel** to filter/search by region, ICB/system, organisation and higher education institution. For the site page you can also filter/search by site.

The top bar displays the average score of all organisations selected. Click on an organisation to see only their results in full.

# NEW Downloadable data (excel files)

New for 2024 will be the ability to view selected indicator level data in a downloadable excel file.

To protect learner anonymity masking continues to be applied at  $N \geq 3$ .

The full range of excel files will be available from April 2025.
