Very keen to work collaboratively with HEIs and others to develop REPs and other placements. I'm in Frimley,

@Tanya, we have introduced REP in physiotherapy at UWE. Happy to connect you if you contact me at Robyn

Have you required additional resources to help establish REM ?

@Tanya, we have introduced REP in physiotherapy at UWE. Happy to connect you if you contact me at Robyn

Have you required additional resources to help establish REM ?

Are these additional to traditional placements? I work in dietetics...

Are these additional to traditional placements? I work in dietetics...

yes, its just one placement on the programme. Others are traditional(Are these additional to traditional place

if people want me then connect with people on the webinar and others nationally to learn and share please e

Do project based placements have to incorporate service user/pt contact, or can they be purely theoretical?

Do project based placements have to incorporate service user/pt contact, or can they be purely theoretical?

Would you be happy to share the handbook as a best practice example?

Could the handbook be shared?

Would you be happy to share the handbook as a best practice example?

Could the handbook be shared?

@Sharon Burfield, would love to connect with you, based at the University of Brighton. Email is S.J.Ryan@bri

i'll ask Rachel about sharing the handbook and if she agrees we will include it on the link with the recording

can i ask if there are any challenges with technology for REP placements?

@Sharon Burfield, would love to connect with you, based at the University of Brighton. Email is S.J.Ryan@bri

can i ask if there are any challenges with technology for REP placements?

Have you done any peer REPs ie one OT and one PT working together?

would Rachel be willing to share the educator handbook? thanks

Are all placements close to the city of Salford?

Are all placements close to the city of Salford?

Can we please have a copy of the powerpoint presentation thank you

I absolutely think is thinking outside the box and as per previous comments this needs to be looked at in Nurs

sorry we are overtime, I will continue because the session is recorded people will be able to access anything tl

Can we please have a copy of the powerpoint presentation thank you

we'll ask Rachel for permission and if agreed include with the recording on the HEE website(Karen (Unverified

I absolutely think is thinking outside the box and as per previous comments this needs to be looked at in Nurs

Hi

It would be great to speak to anyone that is considering looking at this in nursing

is this timetabled for 30 mins?

have you got a link to where i would find the recording on the HEE website please

Allow for a couple of days - but it should appear here: <https://www.hee.nhs.uk/our-work/allied-health-profes>

Hi

happy to share AHP info and link you up with Chief Nurses in HEE to look at nursing if you email me :-)

It would be great to speak to anyone that is considering looking at this in nursing

is this timetabled for 30 mins?

have you got a link to where i would find the recording on the HEE website please

I've got a Paramedic hat on and i think that this is amazing!! There is so much emphasis put on placement wtl

Sounds like there is an appetite to pilot this in nursing - happy to be involved

Channine your PHD looks exactly what I was looking for thank you

That will be great David, Thank you.
