

Supporting doctors in training with special circumstances

What is it?

We want every doctor to have the best chance of success. This process ensures **applicants are supported and treated fairly and consistently.**

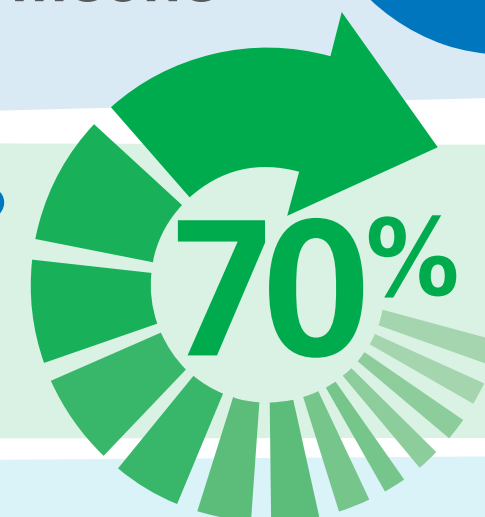

Am I eligible to apply?

Yes, if you have a **condition that requires follow up in a specific location**, or you are **primary carer for someone who is disabled.**

How many applications does HEE approve?

We are approving an increasing number - **70%** so far this year.

How do I increase my approval chances?

Take extra care to **give us everything we need.** The most common reason for lack of approval is because **necessary evidence isn't provided.**

What if my application isn't approved?

You will be **told why precisely and what new evidence may help you appeal**, something all applicants can do. It is in the NHS's interests you succeed so **we want to help.**
